(Incorporated with limited liability in Australia)

U.S.\$15,000,000,000

Programme for the issuance of Medium Term Notes, Euro-commercial Paper and other debt instruments

On 26 September 2001 Suncorp-Metway Limited (the "**Issuer**" or "**Suncorp**") entered into a U.S.\$ 7,500,000,000 Programme for the issuance of Medium Term Notes, Euro-commercial Paper and other debt instruments (the "**Programme**") under which it may from time to time issue medium term notes (the "**Notes**"), short term promissory notes ("**ECP**") and other debt instruments as agreed between the Issuer and the relevant Dealer (as defined below), and denominated in any currency agreed between the Issuer and the relevant Dealer. As of 8 September 2004, the maximum aggregate nominal amount of all Notes, ECP and other debt instruments which may be outstanding under the Programme was increased to U.S.\$15,000,000,000. This Offering Circular supersedes any offering circular with respect to the Programme issued prior to the date hereof. Any Notes issued under the Programme on or after the date of this Offering Circular are subject to the provisions described herein, but this Offering Circular does not affect the terms of any Notes issued prior to the date hereof.

Notes may be issued in bearer or registered form (respectively "**Bearer Notes**" and "**Registered Notes**"). ECP may be issued in bearer form only. The maximum aggregate nominal amount of all Notes, ECP and other debt instruments from time to time outstanding under the Programme will not exceed U.S.\$15,000,000,000 (or its equivalent in other currencies calculated as described herein), subject to increase as described herein. A description of the restrictions applicable at the date of this Offering Circular relating to the maturity of certain Notes is set out under "Summary of the Programme".

The Notes may be issued on a continuing basis to one or more of the Dealers specified in the "Summary of the Programme" and any additional Dealer appointed under the Programme from time to time, which appointment may be for a specific issue or on an ongoing basis (each a "**Dealer**" and together the "**Dealers**"). References in this Offering Circular to the "relevant Dealer" shall, in the case of an issue of Notes being (or intended to be) subscribed for by more than one Dealer, be to all Dealers agreeing to subscribe for such Notes. The Issuer has reserved the right to issue Notes to persons other than the Dealers.

An investment in Notes issued under the Programme involves certain risks. For a discussion of these risks see "**Risk Factors**".

Application has been made to the Financial Conduct Authority in its capacity as competent authority (the "**UK Listing Authority**") for Notes (other than Exempt Notes (as defined below)) issued under the Programme during the period of 12 months from the date of this Offering Circular to be admitted to the official list of the UK Listing Authority (the "**Official List**") and to the London Stock Exchange plc (the "**London Stock Exchange**") for such Notes to be admitted to trading on the London Stock Exchange's regulated market. References in this Offering Circular to Notes being "traded" (and related references) on the London Stock Exchange shall mean that such Notes have been admitted to trading on the London Stock Exchange's regulated market and have been admitted to the Official List. The London Stock Exchange's regulated market is a regulated market for the purposes of Markets in Financial Instruments Directive (Directive 2004/39/EC). The requirement to publish a prospectus under the Prospectus Directive (as defined below) only applies to Notes which are to be admitted to trading on a regulated market in the European Economic Area and/or offered to the public in the European Economic Area other than in circumstances where an exemption is available under Article 3.2 of the Prospectus Directive (as implemented in the relevant Member State(s)). References in this Offering Circular to "**Exempt Notes**" are to Notes for which no prospectus is required to be published under the Prospectus Directive and, accordingly, Exempt Notes do not form part of the base prospectus comprised by this Offering Circular for the purposes of Article 5.4 of the Prospectus Directive. The UK Listing Authority has neither approved nor reviewed information contained in this Offering Circular in connection with Exempt Notes.

Notice of the aggregate nominal amount of, interest (if any) payable in respect of, the issue price of, and certain other information not contained herein which is applicable to, the Notes of each Tranche (as defined in the "Terms and Conditions of the Notes") will (other than in the case of Exempt Notes, as defined above) be set forth in the Final Terms (the "**Final Terms**") which, with respect to Notes to be traded on the London Stock Exchange, will be delivered to the UK Listing Authority and the London Stock Exchange. In the case of Exempt Notes, notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and certain other information which is applicable to each Tranche will be set out in a pricing supplement document (the "**Pricing Supplement**").

The Issuer may agree with any Dealer that Notes may be issued in a form not contemplated by the Terms and Conditions of the Notes herein, in which event a new Offering Circular or a supplement to the Offering Circular, if appropriate, will be made available which will describe the effect of the agreement reached in relation to such Notes.

This Offering Circular comprises a base prospectus in respect of all Notes other than Exempt Notes issued under the Programme for the purposes of Article 5.4 of Directive 2003/71/EC as amended (which includes the amendments made by Directive 2010/73/EU to the extent that such amendments have been implemented in a relevant member state of the European Economic Area) (the “Prospectus Directive”).

No registration under the U.S. Securities Act

The Notes have not been and will not be registered under the U.S. Securities Act of 1933, as amended, (the “**Securities Act**”) and may be issued in bearer or registered form. The Notes are being offered outside the United States by the Dealers in accordance with Regulation S under the Securities Act, and may not be offered, sold or resold or delivered within the United States or to, or for the account or benefit of, U.S. persons except in accordance with Regulation S of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

The Notes in bearer form are subject to U.S. tax law requirements and, pursuant to the terms of the Programme, may not be offered, sold or delivered within the United States or to United States persons, except in certain transactions permitted by the U.S. Internal Revenue Code of 1986, as amended (the “**U.S. Internal Revenue Code**”) and U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code and U.S. tax regulations.

Credit ratings

It is expected that the Notes will, when issued, under the Programme be assigned a rating of A+ by Standard & Poor’s (Australia) Pty Ltd, A+ by Fitch Australia Pty Limited and (P)A1 by Moody’s Investor Services Pty Limited. None of these entities are registered in the European Union or have applied for registration under Regulation (EU) No 1060/2009 (the “**CRA Regulation**”). Standard & Poor’s Credit Market Services Europe Limited, Fitch Ratings Limited and Moody’s Investor Services Limited are established in the European Union and are registered under the CRA Regulation to endorse the ratings given by Standard & Poor’s (Australia) Pty Ltd, Fitch Australia Pty Limited and Moody’s Investor Services Pty Limited, respectively. In a report dated 18 April 2012 the European Securities and Markets Authority concluded that, overall, the Australian legal and supervisory framework is equivalent to the EU regulatory regime for credit rating agencies according to what is provided for in Art. 5(6) of the CRA Regulation. In general, European Investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the European Union and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst a registration application is pending.

One or more independent rating agencies may assign credit ratings to the Notes to be issued by Suncorp under the Programme. The rating(s) (if any) of the Notes will be specified in the applicable Final Terms (or Pricing Supplement, in the case of Exempt Notes) and will not necessarily be the same as the rating assigned to the Programme by the relevant rating agency.

A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, cancellation, reduction or withdrawal at any time by the assigning rating agency. Each rating should be evaluated independently of any other rating.

In Australia, credit ratings must only be distributed to a person (a) who is not a “retail client” within the meaning of section 761G of the Corporations Act 2001 of Australia (“**Corporations Act**”) and is also a sophisticated investor, professional investor or other investor in respect of whom disclosure is not required under Parts 6D.2 or 7.9 of the Corporations Act, and (b) who is otherwise permitted to receive credit ratings in accordance with applicable law in any jurisdiction in which the person may be located. Anyone who is not such a person is not entitled to receive the Offering Circular and anyone who receives this Offering Circular must not distribute it to any person who is not entitled to receive it.

The Issuer and the Dealers do not represent that this document may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer or the Dealers which would permit a public offering of any Notes outside the United Kingdom or distribution of this Offering Circular in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Offering Circular nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations and the Dealers have represented that all offers and sales by them will be made on the same terms.

In particular, there are restrictions on the distribution of this Offering Circular and the offer or sale of Notes in the United States, the European Economic Area (including the United Kingdom), Australia, Japan, Hong Kong, Singapore and the Republic of Korea (see "Subscription and Sale and Transfer and Selling Restrictions" below).

This Offering Circular is not intended to, nor does it, constitute an offer or invitation by or on behalf of the Issuer or any Dealer to any person to subscribe for or purchase any Notes nor does it constitute, and it may not be used for the purposes of, an offer or invitation by anyone in any jurisdiction in which such offer or invitation is not authorised or to any person to whom it is unlawful to make such offer or solicitation, and no action is being taken to permit an offering of the Notes or the distribution of this Offering Circular or any Final Terms or Pricing Supplement in any jurisdiction where such action is required.

Notes may not be a suitable investment for all investors

In making an investment decision, investors must rely on their own examination of the Issuer and the terms of the Notes being offered, including the merits and risks involved.

None of the Dealers or the Issuer makes any representation to any investor in the Notes regarding the legality of its investment under any applicable laws. Any investor in the Notes should be able to bear the economic risk of an investment in the Notes for an indefinite period of time.

Legal investment considerations may restrict certain investments. The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

Overview of the Programme

Notes having a maturity of less than one year may be subject to restrictions on their denomination and distribution, see “*Certain Restrictions*”, above.

Denomination of Notes:

Notes will be issued in denominations as may be agreed between the Issuer and the relevant Dealer and as indicated in the applicable Final Terms (or the applicable Pricing Supplement, in the case of Exempt Notes) save that the minimum denomination of each Note will be such as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant Specified Currency, see “*Certain Restrictions*” above and save that the minimum denomination of each Note will be €100,000 (or, if the Notes are denominated in a currency other than euro, the equivalent amount in such currency).

Withholding tax:

All payments in respect of the Notes will be made without withholding or deduction for or on account of taxes imposed by the Commonwealth of Australia or the State of Queensland, subject as provided in Condition 7. In the event that any such withholding or deduction is made, the Issuer will, save in certain limited circumstances provided in Condition 7, be required to pay additional amounts to cover the amounts so withheld or deducted.

A brief overview of the Australian withholding tax treatment of payments of interest on Notes is set out in the section entitled “*Australian Taxation*” below. However, investors should obtain their own taxation advice regarding the taxation status of investing in any Notes.

Tax file number and Australian business number withholding tax:

The Issuer may be required under Australian taxation laws to withhold or deduct (and, if so required, will withhold or deduct or will cause to be withheld or deducted) amounts from payments in respect of a Registered Note at the prescribed rate (currently 46.5 per cent., with an increase to 47 per cent. on 1 July 2014, but see the section entitled “*Australian Taxation*” below for further detail regarding a potential increase to 49 per cent.) if an Australian resident investor or a non-resident investor that holds such a Registered Note in carrying on business at or through a permanent establishment in Australia has not supplied an appropriate tax file number, (if applicable) Australian business number or exemption details as may be necessary to enable the payment to be made without the required withholding or deduction.

Status of the Notes:

Notes and any relative Coupons will be direct, unsubordinated, unsecured and general obligations of the Issuer and will rank *pari passu*, without any preference among themselves, with all other outstanding unsecured and unsubordinated obligations of the Issuer, present and future (other than indebtedness preferred by mandatory provisions of law) – see Condition 3.

Credit Rating:

One or more independent rating agencies may assign credit ratings to the Notes to be issued by Suncorp under the Programme. The rating(s) (if any) of the Notes will be specified in the applicable Final Terms (or, in the case of Exempt Notes, the applicable Pricing Supplement) and will not necessarily be the same as the rating assigned to the Programme by the relevant rating agency.

A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, cancellation, reduction or withdrawal at any time by the assigning rating agency. Each rating should be evaluated independently of any other rating.

In Australia, credit ratings must only be distributed to a person (a) who is not a “retail client” within the meaning of section 761G of the Corporations Act and is also a sophisticated investor, professional investor or other investor in respect of whom disclosure is not

required under Parts 6D.2 or 7.9 of the Corporations Act, and (b) who is otherwise permitted to receive credit ratings in accordance with applicable law in any jurisdiction in which the person may be located. Anyone who is not such a person is not entitled to receive the Offering Circular and anyone who receives this Offering Circular must not distribute it to any person who is not entitled to receive it.

Listing and admission to trading:

Application has been made to the London Stock Exchange for Notes issued under the Programme (other than Exempt Notes) to be admitted to the Official List and to admit them to trading on the London Stock Exchange's regulated market.

In the case of Exempt Notes, the applicable Pricing Supplement will state whether or not the relevant Notes will be listed and/or admitted to trading on any other stock or securities exchange (which must not be a regulated market for the purposes of the Markets in Financial Instruments Directive (Directive 2004/39/EC)).

The Programme Agreement provides that, if the maintenance of the listing of any Notes has, in the opinion of the Issuer, become unduly onerous for any reason whatsoever, the Issuer shall be entitled to terminate such listing subject to it using its best endeavours promptly to list or admit to trading the Notes on an alternative stock exchange, within or outside the European Union, to be agreed between the Issuer and the relevant Dealer or, as the case may be, the Lead Manager.

Governing Law:

The Notes and any non-contractual obligations arising out of or in connection with the Notes will be governed by, and shall be construed in accordance with, English law.

Selling Restrictions:

There are restrictions on the offer, sale and transfer of the Notes in the United States, the European Economic Area (including the United Kingdom), Australia, Japan, Hong Kong, Singapore and the Republic of Korea and such other restrictions as may be required in connection with the offering and sale of a particular Tranche of Notes. See "Subscription and Sale and Transfer and Selling Restrictions".

Risk Factors

In purchasing Notes, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer has identified in this Offering Circular a number of factors which could materially adversely affect its business and ability to make payments due under the Notes.

In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

The Issuer believes that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons which may not be considered significant risks by the Issuer based on information currently available to it or which it may currently be able to anticipate. Prospective investors should also read the detailed information set out elsewhere in this Offering Circular and reach their own views prior to making any investment decision.

(a) Factors that may affect the Issuer's ability to fulfil its obligations under Notes issued under the Programme

The Issuer faces intense competition in all aspects of its business

The Australian banking industry is highly competitive. The Issuer competes with retail and commercial banks and other financial service firms. This includes the four major banking groups, who have greater financial and other resources than the Issuer and stronger market shares, and specialist competitors that may not be subject to the same capital and regulatory requirements and therefore may be able to operate at a lower cost.

If the Issuer is unable to compete effectively in its businesses and markets, its market share may decline. Increased competition may also adversely affect its results of operations by losing business to its competitors or creating pressure to lower margins.

Increased competition for deposits could also increase its cost of funding and require it to access other types of funding. The Issuer relies on retail deposits and, to a lesser extent, commercial/SME deposits to fund a significant portion of its statement of financial position. The Issuer competes principally with banks and other financial services firms for such deposits. To the extent that the Issuer is not able to successfully compete for deposits, the Issuer would be forced to rely more heavily on more expensive or less stable forms of funding, or reduce its lending.

Although the Issuer's efforts to achieve Basel II advanced accreditation are expected to assist in the improvement of the quality of its loan portfolio, which would enable the Issuer to hold lower levels of capital on lower risk portfolios and would also improve the potential return on capital and ability to compete in areas such as low loan-to-value ratio ("LVR") residential mortgage lending, however, there can be no assurance that the Issuer will be successful in obtaining Basel II advanced accreditation in a timely manner or at all. Any delay or inability in the Issuer achieving Basel II advanced accreditation may adversely affect the Issuer's ability to compete with the major Australian retail banks. The Issuer has been operating in a non-advanced accredited Basel II environment for a number of years.

The Issuer is also dependent on its ability to offer products and services that satisfy evolving customer preferences, habits and sentiment. If the Issuer is not successful in developing or introducing new products and services or responding or adapting to changes in customer preferences, habits and sentiment, it may lose customers to its competitors. This could adversely affect the Issuer's businesses, financial performance, financial condition and prospects.

The level of competition continues to increase as the trend toward consolidation in the global financial services industry is creating competitors with broader ranges of product and services, greater geographical scope, increased access to capital, and greater efficiency and enhanced pricing power. As a result, the Issuer could lose market share or be forced to reduce prices in order to compete effectively, particularly if industry participants engage in aggressive growth strategies or severe price discounting.

Risk Factors

The Issuer's businesses are highly regulated and it could be adversely affected by failing to comply with existing laws and regulations

As a bank, the Issuer is subject to extensive laws and regulations, including those relating to capital, liquidity, solvency, provisioning, accounting and reporting requirements, taxation, remuneration, consumer protection, competition, bribery, anti-money laundering and counter-terrorism financing, in the various Australian states and territories in which it operates. The Issuer is also supervised by a number of different regulatory authorities which have broad administrative power over its businesses, including the Australian Prudential Regulatory Authority (“APRA”), the Reserve Bank of Australia (“RBA”), the Australian Securities Investments Commission (“ASIC”), the Australian Securities Exchange Limited (“ASX”), the Australian Consumer Competition Commission (“ACCC”) and the Australian Transaction Reports and Analysis Centre (“AUSTRAC”). In particular, the Issuer is subject to prudential supervision by APRA and is required, among other things, to comply with prescribed capital requirements.

If the Issuer fails to comply with applicable laws and regulations (including those prescribed by the regulatory authorities having supervision over the Issuer) and industry codes of practice, it may be subject to suspensions, restrictions or loss of operating licenses, fines and penalties or limitations on its ability to do business. An example of the broad administrative power applicable to the Issuer is the power of APRA in certain circumstances to investigate the Issuer's affairs or issue a direction to it (such as a direction to comply with a prudential requirement, to conduct an audit, to remove a director, executive officer or employee or not to undertake transactions). Any such suspension, restriction or loss of any operating license, fine, penalty or limitation on its ability to do business could adversely affect the Issuer's reputation, businesses, financial performance, financial condition and prospects.

The Issuer could be adversely affected by changes in laws, regulations and regulatory policies or by increased compliance requirements as a result of such changes

The Issuer continues to face increased supervision and regulation in Australia, particularly in the areas of funding, liquidity, capital adequacy and prudential regulation. Changes in applicable laws, regulations and regulatory policies may adversely affect how the Issuer conducts its business, the profitability or size of the Issuer's business activities and could expose it to additional costs. In addition, there is operational and compliance risk associated with the implementation of any new laws and regulations that apply to it.

Regulatory change may impact the Issuer's operations by requiring it to maintain higher levels of capital, higher quality capital or increased levels of liquidity as well as place restrictions on the businesses that the Issuer conducts or require the Issuer to alter its product and service offerings or increase the ability of other providers to offer competing financial services and products. If regulatory change has any such effect, it could restrict the Issuer's flexibility to conduct its businesses, require it to incur substantial costs and impact the profitability of one or more of the Issuer's business lines. Any such costs or restrictions could adversely affect the Issuer's businesses, financial performance, financial condition and prospects. An example of such a regulatory change that is currently impacting the operations of the Issuer (as well as a number of other regional banks in Australia) is the additional capital the Issuer is required to set aside for loans compared with those financial institutions with advanced Basel II accreditation.

Regulation is also becoming increasingly extensive and more complex, as regulators across multiple jurisdictions seek to adopt a coordinated approach, or certain jurisdictions seek to expand the territorial reach of their regulation. For example, in December 2010, the Basel Committee on Banking Supervision announced a revised global regulatory capital framework, known as Basel III. Basel III will, among other things, increase the required quality and quantity of capital held by banks and introduces new minimum standards for the management of liquidity risk. On 1 January 2013, APRA implemented a package of Basel III capital reforms for application to Australian Authorised Deposit-Taking Institutions (“ADIs”). These reforms include stricter eligibility criteria for capital instruments and the introduction of capital conservation and countercyclical buffers. The requirement to maintain certain levels of capital, such as “Common Equity Tier One,” “Tier One” and “Total Capital”, determines the level of lending activity, or alternatively, requires the issue of additional equity capital or subordinated debt. Any further changes in regulation, including changes that increase the requirements of regulatory capital could have an adverse impact on the Issuer's results of operations, or the ability of the Issuer to maintain or grow its current businesses.

Changes may also occur in the oversight approach of regulators. It is possible that governments in jurisdictions in which the Issuer conducts business or obtains funding might revise their application of existing regulatory policies that apply to, or impact, the Issuer's businesses. Such changes may be driven by policy, prudential or political factors or for reasons relating to national interest and/or systemic stability. In addition, there are a number of general areas of potential regulatory change that could impact the Issuer, including changes to accounting and reporting requirements, tax legislation, regulation relating to remuneration, privacy, consumer protection and competition legislation and bribery and anti-money

Risk Factors

laundering and counter-terrorism financing laws. Such changes could adversely affect the profitability of the Issuer's businesses to the extent that they limit its operations or increase the cost of compliance with the revised rules and regulations. The nature, timing and impact of future regulatory changes are not predictable and are beyond the Issuer's control.

The Issuer may be adversely affected by increased governmental and regulatory scrutiny or negative publicity

Governmental scrutiny from regulators, legislative bodies and law enforcement agencies with respect to matters relating to business practices, taxation, capital and liquidity management, compensation and other matters has increased dramatically in the past several years. The global financial crisis and its resulting political and public sentiment regarding financial institutions has resulted in adverse press coverage regarding financial institutions in general, as well as adverse statements or charges by regulators or other government officials, and in some cases, to increased regulatory scrutiny and investigations. Responding to such matters, regardless of the ultimate outcome, is time-consuming and expensive and can divert the time and effort of senior management from the Issuer's business. Investigations, penalties and fines sought by regulatory authorities have increased substantially over the last several years, and certain regulators have been more likely in recent years to commence enforcement actions or to advance or support legislation targeted at the financial services industry. Adverse publicity, governmental scrutiny and legal and enforcement proceedings can also have a negative impact on the Issuer's reputation and on the morale and performance of its employees, which could adversely affect its businesses and results of operations.

Adverse credit and capital market conditions may significantly affect the Issuer's ability to meet funding and liquidity needs and may increase its cost of funding

The Issuer relies on credit and capital markets – both domestic and offshore – to fund its business and as a source of liquidity. The Issuer's ability to access capital markets, liquidity and costs of obtaining funding are related to general financial and economic conditions, including short-term and long-term interest rates, inflation, monetary supply, volatility in commodities prices, fluctuations in both debt and equity capital markets, changes in foreign exchange rates, consumer confidence and the relative strength of the Australian economy. Renewed volatility or a worsening general economic climate, including in offshore markets, could adversely impact any or all of these factors. Should conditions remain uncertain for a prolonged period, or deteriorate, the Issuer's funding costs may increase and may limit the Issuer's ability to refinance, in a timely manner, maturing liabilities, which could adversely affect the Issuer's ability to fund and grow its business or otherwise have a material impact on the Issuer.

In recent years, the global credit and capital markets have experienced significant volatility, with such markets demonstrating periods of reduced liquidity, widened credit spreads and decreased price transparency. More recently, challenging market conditions have resulted from the ongoing sovereign debt concerns in Europe and concerns about U.S., Chinese and global growth, along with other developments, such as uncertainty regarding the U.S. federal debt ceiling, the U.S. federal budget, decisions with respect to "tapering" of its "quantitative easing" program by the U.S. Federal Reserve Bank and systemic reviews of the banking sector by rating agencies and regulators. Such disruptions, uncertainty or volatility in domestic or global financial markets may increase funding costs, limit the Issuer's access to funding and reduce its financial flexibility.

Domestically, a shift in investment preferences of businesses and consumers away from bank deposits toward other asset or investment classes would increase the Issuer's need for funding from offshore wholesale markets.

If the Issuer's current sources of funding prove to be insufficient, it may be forced to seek alternative financing and/or reduce the level of its lending. The availability of such alternative financing, and the terms on which it may be available, will depend on a variety of factors, including prevailing market conditions, the availability of credit, the Issuer's credit ratings and credit capacity. Even if available, the cost of these alternatives may be more expensive or on unfavourable terms, or the Issuer may be unable to raise as much funding as it needs to support its business activities, which could adversely affect the Issuer's results of operations, liquidity, capital resources and financial condition. There is no assurance that the Issuer will be able to obtain adequate funding or to do so at acceptable prices, or to recover any additional costs on acceptable terms.

If the Issuer is unable to source appropriate funding on acceptable terms, it may also be forced to reduce its lending or begin to sell liquid securities. There is no assurance that the Issuer will be able to obtain favourable prices on some or all of the securities that it may offer for sale or in an acceptable timeframe. Such actions may adversely impact the Issuer's businesses, financial performance, liquidity, capital resources, financial condition and prospects.

Risk Factors

Adverse financial market conditions or the Issuer-specific circumstances may significantly affect the Issuer's ability to maintain adequate levels of liquidity

The Issuer's liquidity and funding policies are designed to allow it to meet its contractual and contingent payment obligations as and when they fall due, by seeking to ensure it is able to borrow funds on an unsecured basis, has sufficient assets to borrow against on a secured basis, and has sufficient high quality liquid assets to sell to raise immediate funds without adversely affecting the Issuer's net asset value. The Issuer monitors and manages its liquidity and funding profile through its approved liquidity framework, which models its ability to fund under both normal conditions and during a crisis situation. However, if the Issuer is unable to maintain adequate levels of liquid assets, which may be due to a number of factors including significant unforeseen changes in interest rates, ratings downgrades, higher than anticipated losses on investments, disruptions in the financial markets generally or if financial markets were closed for an extended period of time, it could have adverse effects on the Issuer's operations and financial condition.

Failure to maintain credit ratings could adversely affect the Issuer's cost of funds, liquidity, competitive position and access to capital markets

The Issuer's credit ratings affect the cost and availability of its funding from capital markets and other funding sources and they may be important to customers or counterparties when evaluating the Issuer's products and services. Therefore, maintaining quality credit ratings is important.

The credit ratings assigned to the Issuer by rating agencies are based on an evaluation of a number of factors, including its financial strength, risk management controls, support from Suncorp Group Limited (and, together with Suncorp Group Limited's controlled entities, the "Group") and structural considerations regarding the Australian financial system and the credit rating of the Australian Government. A credit rating downgrade could be driven by the occurrence of one or more of the other risks identified in this section or by other events, including changes to the methodologies used by the rating agencies to determine ratings.

A downgrade to the Issuer's credit ratings could adversely affect its cost of funds and related margins, collateral requirements, liquidity, competitive position, the willingness of counterparties to transact with the Issuer, and its access to capital markets. The extent and nature of these impacts would depend on various factors, including the extent of any ratings change, whether its ratings differ among agencies (split ratings) and whether any ratings changes also impact its peers or the sector.

The Issuer's business is substantially dependent on the Australian economy, including general economic conditions and other business conditions

As the Issuer conducts almost all of its business in Australia, its performance is influenced primarily by the level and cyclical nature of residential and business lending in Australia. In particular, levels of borrowing are heavily dependent on customer confidence, the state of the economy and prevailing interest rates at the time. A significant decrease in demand in the Australian housing markets or property valuations, particularly in Queensland where a substantial portion of the Issuer's residential loans are concentrated, could adversely impact the Issuer's residential lending activities by reducing the value of the properties held as security, causing the Issuer to incur higher credit losses. In addition, the Issuer conducts a substantial amount of lending to agribusinesses, particularly in Queensland and New South Wales. A significant decline in the prices of agricultural commodities or in the agriculture sector generally in these two states could adversely impact the Issuer's agribusiness lending activities and cause higher credit losses. Furthermore, the occurrence of any natural disasters, including droughts, floods and cyclones, may also cause an economic downturn in the areas directly or indirectly affected by the disaster and could adversely affect the ability of borrowers to make payments on loans.

These factors are in turn impacted by both domestic and international economic conditions, natural disasters and political events, which are outside of the Issuer's control. There can be no assurance that a weakening in the Australian economy and/or a weakening in the economic and business conditions of other countries will not have an adverse effect on the Issuer's financial condition and on the results of its operations.

Adverse changes to the economic and business conditions in Australia and other countries such as China, India, Japan, South Korea, members of the European Union and the United States, could also negatively impact the Australian economy, the Issuer's customers and its investments. For example, during 2013, domestic growth in the resources, business and household sectors in Australia slowed. Uncertainty in the outlook of the Australian economy has resulted in higher rates of savings, lower demand for credit and lower discretionary spending. Furthermore, during 2013, China's economy, on which the Australian economy (particularly in the mining and resources sectors) is strongly dependent, recorded a historically low growth rate. A continued downturn in China's economic growth could adversely

Risk Factors

affect the Australian economy (particularly the mining and resources sectors), particularly due to the two countries' significant trade relationship. All of these factors could result in reduced demand for the Issuer's products and services and/or impact the Issuer's investment returns, which could affect its business, financial performance, financial condition and prospects.

A systemic shock in relation to the Australian or other financial systems could have adverse consequences for the Issuer or its customers or counterparties to which it would be difficult to predict and respond

There is a risk that a major systemic shock could occur that causes an adverse impact on the Australian or other financial systems. As outlined above, the financial services industry and capital markets have been, and may continue to be, affected by continuing market volatility and the outlook for global economic conditions. In recent years, there has been an increased focus on the potential for sovereign debt defaults and/or significant bank failures in the countries comprising the Euro-zone. There can be no assurance that the market disruptions in the Euro-zone, including the increased cost of funding for certain Euro-zone governments, will not spread, nor can there be any assurance that future assistance packages will be available or sufficiently robust to address any further market contagion in the Euro-zone or elsewhere.

Any such market and economic disruptions could have an adverse effect on financial institutions such as the Issuer because consumer and business spending may decrease, unemployment may rise and demand for the products and services the Issuer provides may decline, thereby reducing its earnings. These conditions may also affect the ability of the Issuer's borrowers to repay their loans or the Issuer's counterparties to meet their obligations, causing the Issuer to incur higher credit losses. These events could also result in the undermining of confidence in the financial system, reducing liquidity and impairing the Issuer's access to funding and impairing its customers and counterparties and their businesses. If this were to occur, the Issuer's businesses, financial performance, financial condition and prospects could be adversely affected.

The nature and consequences of any such event are difficult to predict with certainty and there can be no guarantee that the Issuer would be able to respond effectively to any such event. If the Issuer were not to respond effectively, its businesses, financial performance, financial condition and prospects could be adversely affected.

Declines in asset values could adversely affect the Issuer's operations or profitability

The Issuer's performance is influenced by asset markets in Australia and elsewhere, including equity, property and other investment asset markets, particularly in Queensland and to a lesser extent, in New South Wales and Western Australia. Declining asset prices could impact customers and counterparties and the value of security the Issuer holds against loans and derivatives which may impact its ability to recover amounts owing to it should its customers or counterparties default.

In particular, the residential, commercial and agriculture property lending sectors in Queensland, and to a lesser extent, New South Wales and Western Australia, are important businesses of the Issuer. Overall, Australian property markets have been volatile, particularly in Queensland where there have been reduced asset values. Declining property valuations in Queensland or Australia generally could decrease the amount of new lending the Issuer is able to write and/or increase the losses that it may experience from existing loans.

For example, a significant decrease in Australian housing market demand or property valuations, particularly in Queensland, or a significant slowdown in housing, commercial or strata title property markets due to declining property valuations, could adversely impact the Issuer's residential lending activities if the value of properties held as security were to be adversely affected. This may cause the Issuer to incur higher credit losses, or the demand for its lending products may decline, which could adversely affect the Issuer's businesses, financial performance, capital resources, financial condition and prospects.

An increase in defaults in credit exposures could adversely affect the Issuer's results of operations, liquidity, capital resources and financial condition

Credit risk is a significant risk and arises primarily from the Issuer's lending activities. The risk arises from the likelihood that some customers and counterparties will be unable to honour their obligations to the Issuer, including the repayment of loans and interest. Residential mortgage loans with higher LVRs, which constitute a part of the Issuer's residential mortgages portfolio, typically have default rates higher than residential mortgage loans with lower LVRs and therefore may be more acutely impacted by economic volatility. The Issuer has sought to limit its exposures to defaulting higher LVR residential mortgage lending through requiring all mortgage borrowers of loans with a LVR above 80 per cent. to

Risk Factors

maintain lenders mortgage insurance with counterparties exhibiting a satisfactory risk profile. However, the Issuer cannot provide any assurance that losses from defaulting residential mortgage loans would be fully covered by lenders mortgage insurance. Losses would be incurred by the Issuer on such defaulting residential mortgages where the borrower defaults, the property is realised at a price less than the amount of the debt and the provider of lenders mortgage insurance does not honour a claim either because the basis upon which the lenders mortgage insurance is provided was deficient or because the provider of the lenders mortgage insurance is incapable of meeting a claim.

Credit risk also arises from certain derivative contracts the Issuer enters into and from its dealings with, and holdings of, debt securities issued by other banks, financial institutions, companies, governments and government bodies. The financial conditions of these entities may be impacted to varying degrees by economic conditions in global financial markets.

The Issuer holds collective and individually assessed provisions for its credit exposures. If economic conditions deteriorate, some customers and/or counterparties could experience higher levels of financial stress and the Issuer may experience a significant increase in defaults and write-offs, and be required to increase its provisioning. Such events would diminish available capital and would adversely affect the Issuer's operating results, liquidity, capital resources and financial condition.

The Issuer is exposed to credit risk as a consequence of its lending activities and holds specific provisions to cover bad and doubtful debts. If these provisions prove inadequate, either because of an economic downturn or a significant breakdown in its credit disciplines, then this could have a material adverse effect on its business.

The Issuer could suffer losses due to failures in risk management strategies

The Issuer has implemented risk management strategies and internal controls involving processes and procedures intended to identify, monitor and mitigate the risks to which it is subject, including liquidity risk, credit risk, market risk (including interest rate and foreign exchange risk) and operational risk. However, there are inherent limitations with any risk management framework as there may exist, or develop in the future, risks that the Issuer had not anticipated or identified or controls may not operate effectively.

Market conditions in recent years have involved unprecedented dislocations and highlight the limitations inherent in using historical data to manage risk. Although the Issuer believes that it has thorough and robust stress testing framework in place, there can be no assurance that the risk management processes and strategies that the Issuer has developed will adequately anticipate or be effective in addressing market stress or unforeseen circumstances.

If any of the Issuer's risk management processes and procedures prove ineffective or inadequate or are otherwise not appropriately implemented, the Issuer could suffer unexpected losses and reputational damage which could adversely affect its business, financial performance or financial condition.

The Issuer could suffer losses due to technology failures and face information security risks

The Issuer relies to a significant degree on information technology systems. Most of the Issuer's daily operations are computer based and its information technology systems are essential to maintaining effective communication with customers. The Issuer is exposed to a number of system risks, including complete or partial failure of the information technology systems, inadequacy of internal, partner or third party information technology systems, capacity of the existing systems to effectively accommodate the Issuer's planned growth and integrate existing and future acquisitions and alliances, systems integration programs not being completed within the timetable or budget, and compromise of information or technology arising from external or internal security threats.

The Issuer has disaster recovery and systems monitoring tools and development roadmaps in place to mitigate some of these risks. However, any failure in the Issuer's information technology systems could result in business interruption, the loss of customers, damaged reputation and weakening of its competitive position and could adversely affect the Issuer's business.

The Issuer's operations rely on the secure processing, storage and transmission of confidential and other information on its own computer systems and networks, and the systems and networks of external suppliers. Although the Issuer implements measures to protect the security and confidentiality of information, there is a risk that the computer systems, software and networks on which the Issuer relies may be subject to security breaches, unauthorised access, computer viruses, external attacks or internal breaches that could have an adverse security impact and compromise the Issuer's confidential information or that of its customers and counterparts. Any such security breach could result in regulatory enforcement actions, reputational damage and reduced operational effectiveness.

Risk Factors

In addition, the Issuer has an ongoing need to update and implement new information technology systems, in part to assist it to satisfy regulatory demands, ensure information security, enhance computer-based banking services for the Issuer's customers and integrate its various businesses. The Issuer may not implement these projects effectively or execute them efficiently, which could lead to increased project costs, delays in the ability to comply with regulatory requirements, failure of the Issuer's information security controls or a decrease in the Issuer's ability to service its customers. The Issuer is also in the process of implementing its Banking Platform Project, a modernisation and simplification of the Issuer's operational systems. While the Issuer expects the project will bring significant business benefits that will affect its customers and profitability, the Issuer cannot make any assurances that such benefits will be realised.

The Issuer could suffer losses due to operational risks

The Issuer is exposed to the risk of loss resulting from human error, from inadequate or failed internal or external processes and systems or from external events. The Issuer is exposed to a variety of operational risks, such as fraud and other dishonest activities, cyber-attacks, management practices, workplace safety, project and change management, compliance, business continuity and crisis management, key person, information and systems integrity.

Operational risks also include, among other things, outsourcing risks. For example, the Issuer relies on a number of external service providers to provide services to itself and its customers. Although the Issuer has policies and processes in place regarding outsourcing designed to mitigate and manage its outsourcing risk, failure by these suppliers to deliver services as required could result in reduced operational effectiveness, regulatory enforcement actions and reputational damage, and could adversely impact the Issuer's operations and profitability.

Operational risks could impact the Issuer's operations or adversely affect demand for its products and services and its reputation, which could adversely affect the Issuer's businesses, financial performance and prospects. The Issuer could be significantly impacted if its employees undertake unauthorised activities that are in breach of policy, regulations or community standards. If stakeholders perceive that the Issuer has been behaving inappropriately, significant reputational and financial impacts could also be incurred.

The Issuer maintains an operational risk management framework in order to manage its operational risk exposures. This framework aims to identify, assess and report operational risk on a consistent and reliable basis but there can be no assurance such framework will be effective.

Notwithstanding anything in this risk factor, this risk factor should not be taken as implying that the Issuer will be unable to comply with its obligations as a company with securities admitted to the Official List.

The Issuer could suffer losses due to catastrophic events

The Issuer and its customers operate businesses and hold assets in a range of geographical locations. Any significant catastrophic events or external event (including fire, storm, flood, drought, earthquake or pandemic) in any of these locations has the potential to disrupt business activities, impact the Issuer's operations, damage property and otherwise affect the value of assets held in the affected locations and the Issuer's ability to recover amounts owing to it, acknowledging that where insurance is held, this would mitigate losses. In addition, such an event could have an adverse impact on economic activity, consumer and investor confidence, or the levels of volatility in financial markets, which could adversely affect the Issuer's businesses, financial performance, financial condition, capital resources or prospects.

Reputational damage could harm the Issuer's business and prospects

The Issuer's ability to attract and retain customers and the Issuer's prospects could be adversely affected if the Issuer's or the Group's reputation is damaged.

There are various potential sources of reputational damage, including potential conflicts of interest, pricing policies, failing to comply with legal and regulatory requirements (including money laundering, trade sanctions or privacy laws), ethical issues, litigation, failure of information security systems, improper sales and trading practices, failing to comply with personnel and supplier policies, technology failures, security breaches and risk management failures. The Issuer's reputation could also be adversely affected by the actions of the financial services and allied industries in general or from the actions of its customers and counterparties. In addition, although the Issuer does not control those entities that are part of the Group but not of the Issuer, their actions may reflect directly on the Issuer's reputation and its business and business prospects could be adversely affected if any of the entities using the "Suncorp" name take actions that result in negative publicity to the Issuer.

Risk Factors

Failure to appropriately address issues that could or do give rise to reputational risk could also impact the regulatory change agenda, give rise to additional legal risk, subject the Issuer to regulatory enforcement actions, fines and penalties, or harm its reputation among its customers, investors and the marketplace. This could lead to loss of business, which could adversely affect the Issuer's financial performance, financial condition and prospects.

The Issuer relies on services and capital provided by the Group

Members of the Group provide shared services to the Issuer pursuant to certain shared services agreements. These shared services include information technology, human resources, business services, company secretarial and investor relations, media relations and corporate communications, taxation, business improvement and strategy, group risk management, other group-wide services and business shared services. Other than exercising its rights under the shared services agreements, the Issuer has no direct control over the provision of those services, the Group's continued provision of those services or the cost at which such services are provided.

The Issuer has also in the past relied on capital provided by the Group in order to meet capital ratios, whether stipulated by applicable rules and regulations or set by internal policies, and expects that it will continue to do so in the future. The Issuer has no direct control over whether or when such capital injections may be provided and is therefore partly dependent on the financial performance, financial condition and results of the Group and members of the Group. The failure by the Group to provide capital injections when required may adversely affect the Issuer's financial performance, financial condition and prospects.

The unexpected loss of key staff or inadequate management of human resources may adversely affect the Issuer's business, operations and financial condition

The Issuer's ability to attract and retain suitably qualified and skilled employees is an important factor in achieving its strategic objectives. The Chief Executive Officer of the Issuer and the Group and the senior management team of the Group have skills and reputation that are critical to setting the strategic direction, successful management and growth of the Issuer, and whose unexpected loss due to resignation, retirement, death or illness may adversely affect its operations and financial condition. The Issuer may in the future have difficulty retaining or attracting highly qualified people for important roles, which could adversely affect its business, operations and financial condition.

Litigation, regulatory actions and contingent liabilities may adversely impact the Issuer's results of operations

The Issuer may, from time to time, be subject to litigation, regulatory actions and contingent liabilities, which may adversely impact upon its results of operation and financial condition in future periods or its reputation. There is a risk that any losses may be larger than anticipated or provided for. Furthermore, even where monetary damages may be relatively small, an adverse finding in a regulatory or litigation matter could harm the Issuer's reputation or brand, thereby adversely affecting its business. In addition, the Group may be subject to material litigation that could also harm the Issuer's reputation or brand and adversely impact the Issuer's business.

(b) Factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme

Risks related to the structure of a particular issue of Notes

A range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common such features:

Risks applicable to all Notes

If the Issuer has the right to redeem any Notes at its option, this may limit the market value of the Notes concerned and an investor may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return.

An optional redemption feature of Notes is likely to limit their market value. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able

Risk Factors

to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Fixed Rate Notes

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Where the Issuer has the right to effect such a conversion, this will affect the secondary market and the market value of the Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate in such circumstances, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate in such circumstances, the fixed rate may be lower than then prevailing rates on its Notes.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

(c) Risks applicable to certain types of Exempt Notes

Exempt Notes which are issued with variable interest rates or which are structured to include a multiplier or other leverage factor are likely to have more volatile market values than more standard securities.

Exempt Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include those features.

Inverse Floating Rate Exempt Notes will have more volatile market values than conventional Floating Rate Notes.

Inverse Floating Rate Exempt Notes have an interest rate equal to a fixed rate minus a rate based upon a reference rate such as LIBOR. The market values of those Exempt Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Exempt Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Exempt Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Exempt Notes.

(d) Risks related to Notes generally

Set out below is a description of material risks relating to the Notes generally:

The Terms and Conditions of the Notes contain provisions which may permit their modification without the consent of all investors

The Terms and Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

The Terms and Conditions of the Notes also provide that the Principal Paying Agent and the Issuer may, without the consent of Noteholders and without regard to the interests of particular Noteholders, agree to (i) any modification of the Notes, the Coupons or the Agency Agreement (as defined under "Terms and Conditions of the Notes") which is not prejudicial to the interests of the Noteholders or (ii) any modification of the Notes, the Coupons or the Agency Agreement which is of a formal, minor or technical nature or is made to correct a manifest error or to comply with a mandatory provision of law.

Risk Factors

The Notes may be subject to withholding or other taxes in circumstances where the Issuer is not obliged to make gross up payments and this would result in holders receiving less interest than expected and could significantly adversely affect their return on the Notes

Withholding under the EU Savings Directive

Under Council Directive 2003/48/EC on the taxation of savings income, Member States are required to provide to the tax authorities of other Member States details of certain payments of interest or similar income paid or secured by a person established in a Member State to or for the benefit of an individual resident in another Member State or certain limited types of entities established in another Member State.

On 24 March 2014, the Council of the European Union adopted a Council Directive amending and broadening the scope of the requirements described above. Member States are required to apply these new requirements from 1 January 2017. The changes will expand the range of payments covered by the Directive, in particular to include additional types of income payable on securities. The Directive will also expand the circumstances in which payments that indirectly benefit an individual resident in a Member State must be reported. This approach will apply to payments made to, or secured for, persons, entities or legal arrangements (including trusts) where certain conditions are satisfied, and may in some cases apply where the person, entity or arrangement is established or effectively managed outside of the European Union.

For a transitional period, Luxembourg and Austria are required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments. The changes referred to above will broaden the types of payments subject to withholding in those Member States which still operate a withholding system when they are implemented. In April 2013, the Luxembourg Government announced its intention to abolish the withholding system with effect from 1 January 2015, in favour of automatic information exchange under the Directive.

The end of the transitional period is dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries. A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland).

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment, neither the Issuer nor any Paying Agent (as defined in the Terms and Conditions of the Notes) nor any other person would be obliged to pay additional amounts with respect to any Note as a result of the imposition of such withholding tax. The Issuer is required to maintain a Paying Agent in a Member State that is not obliged to withhold or deduct tax pursuant to the Directive.

U.S. Foreign Account Tax Compliance Withholding

Whilst the Notes are in global form and held within Euroclear Bank S.A./N.V. and Clearstream Banking, société anonyme (together, the “**ICSDs**”), it is not expected that the new reporting regime and potential withholding tax imposed by sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (“**FATCA**”) will affect the amount of any payment received by the ICSDs (see *U.S. Foreign Account Tax Compliance Act*). However, FATCA may affect payments made to clearing houses, custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such clearing house, custodian or intermediary generally is unable to receive payments free of FATCA withholding. It also may affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose the custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA) and provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. Investors should consult their own tax adviser to obtain a more detailed explanation of FATCA and how FATCA may affect them. The Issuer’s obligations under the Notes are discharged once it has paid the common depositary for the ICSDs (as bearer or registered holder of the Notes) and the Issuer has therefore no responsibility for any amount thereafter transmitted through the ICSDs and custodians or intermediaries.

The Proposed Financial Transactions Tax

On 14 February 2013, the European Commission produced a proposal (the “**Commission's Proposal**”) for a council directive on a common system of financial transaction tax (“**FTT**”) to be implemented under enhanced co-operation by 11 Member States, namely Austria, Belgium, Estonia, France, Germany, Greece, Italy, Portugal, Slovakia, Slovenia and Spain (the “**participating Member States**”).

Risk Factors

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 are exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

A joint statement issued in May 2014 by ten of the eleven participating Member States indicated an intention to implement the FTT progressively, such that it would initially apply to shares and certain derivatives, with this initial implementation occurring by 1 January 2016.

The FTT proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation. Additional EU Member States may decide to participate.

Other withholdings

There may be other occasions in other jurisdictions in which an amount of, or in respect of, tax is required to be withheld or deducted from a payment in respect of any Note and in respect of which neither the Issuer, any Paying Agent nor any other person would be obliged to pay additional amounts with respect to such Note as set out in Condition 7 (Taxation) of the Notes.

The Issuer has no obligation to maintain a listing of the Notes

Suncorp is not under any obligation to Noteholders to maintain any listing of Notes. If the maintenance of the listing of any Notes has, in the opinion of the Issuer, become unduly onerous for any reason whatsoever, the Issuer shall be entitled to terminate such listing subject to using its best endeavours promptly to list or admit to trading the Notes on an alternative stock exchange, within or outside the European Union, to be agreed between the Issuer and the relevant Dealer or, as the case may be, the Lead Manager.

Although there is no assurance as to the liquidity of any Notes as a result of the listing on a regulated market in the European Economic Area, delisting such Notes may have a material effect on the ability of investors (i) to continue to hold such Notes or (ii) to resell the Notes in the secondary market.

The value of the Notes could be adversely affected by a change in English law or administrative practice in England

The Terms and Conditions of the Notes are governed by English law. No assurance can be given as to the impact of any possible judicial decision, change to English law or administrative practice after the date of this Offering Circular.

Investors who purchase Notes in denominations that are not an integral multiple of the Specified Denomination may be adversely affected if definitive Notes are subsequently required to be issued

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts in excess of the minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in its account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes such that its holding amounts to a Specified Denomination.

If such Notes in definitive form are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Noteholders are subject to the procedures of the clearing systems

Notes issued under the Programme will be represented on issue by one or more Global Notes that may be deposited with a common depository for Euroclear and Clearstream, Luxembourg or may be deposited with a nominee for DTC (each as defined under "Form of the Notes"). Except in the circumstances described in each Global Note, investors will not be entitled to receive Notes in definitive form. Each of DTC, Euroclear and Clearstream, Luxembourg and their respective direct and indirect participants will

Risk Factors

maintain records of the beneficial interests in each Global Note held through it. While the Notes are represented by a Global Note, investors will be able to trade their beneficial interests only through the relevant clearing systems and their respective participants.

While the Notes are represented by a Global Note, the Issuer will discharge its payment obligation under the Notes (either itself or through an agent) by making payments through the relevant clearing systems. A holder of a beneficial interest in a Global Note must rely on the procedures of the relevant clearing system and its participants to receive payments under the Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in any Global Note.

Holders of beneficial interests in a Global Note will not have a direct right to vote in respect of the Notes so represented. Instead, such holders will be permitted to act only to the extent that they are enabled by the relevant clearing system and its participants to appoint appropriate proxies.

(e) Risks related to the market generally

Set out below is a description of material market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

An active secondary market in respect of the Notes may never be established or may be illiquid and this would adversely affect the value at which an investor could sell its Notes

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. Illiquidity (including as a result of volatility in the international markets) may have a severely adverse effect on the market value of Notes.

If an investor holds Notes which are not denominated in the investor's home currency, it will be exposed to movements in exchange rates adversely affecting the value of its holding. In addition, the imposition of exchange controls in relation to any Notes could result in an investor not receiving payments on those Notes

The Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "Investor's Currency") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency-equivalent value of the principal payable on the Notes and (3) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls (including, but not limited, to controls to combat counter-terrorism financing) that could adversely affect an applicable exchange rate or the ability of the Issuer to make payments in respect of the Notes. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Credit ratings assigned to the Issuer or any Notes may not reflect all the risks associated with an investment in those Notes

One or more independent credit rating agencies may assign credit ratings to the Issuer or the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised, suspended or withdrawn by the rating agency at any time.

In general, European regulated investors are restricted under Regulation (EC) No. 1060/2009 (as amended) (the "CRA Regulation") from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). The list of registered and certified rating agencies published by the European Securities and Markets Authority ("ESMA") on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in

Risk Factors

such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list. Certain information with respect to the credit rating agencies and ratings is set out on the cover of this Offering Circular.

Form of the Notes

Any reference in this section to “applicable Final Terms” shall, in the case of Exempt Notes, be deemed to include a reference to “applicable Pricing Supplement” where relevant.

The Notes of each Series will be in either bearer form, with or without interest coupons attached, or registered form, without interest coupons attached. Bearer Notes will be issued outside the United States in reliance on Regulation S under the Securities Act (“**Regulation S**”) and Registered Notes will be issued both outside the United States in reliance on the exemption from registration provided by Regulation S and within the United States in reliance on Rule 144A.

Bearer Notes

Each Tranche of Bearer Notes will initially be represented by either a temporary bearer global Note (a “**Temporary Bearer Global Note**”) or a permanent bearer global note (a “**Permanent Bearer Global Note**”) as indicated in the applicable Final Terms which, in either case will be delivered on or prior to the original issue date of the Tranche to a common depository (the “**Common Depository**”) for Euroclear Bank S.A./N.V. (“**Euroclear**”) and Clearstream Banking, société anonyme (“**Clearstream, Luxembourg**”). Whilst any Bearer Note is represented by a Temporary Bearer Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made against presentation of the Temporary Bearer Global Note only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such Bearer Note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Principal Paying Agent.

On and after the date (the “**Exchange Date**”) which is 40 days after a Temporary Bearer Global Note is issued, interests in such Temporary Bearer Global Note will be exchangeable (free of charge) upon a request as described therein either for (i) interests in a Permanent Bearer Global Note without interest coupons or talons or (ii) for definitive Bearer Notes with, where applicable, interest coupons and talons attached (as indicated in the applicable Final Terms and subject, in the case of definitive Bearer Notes, to such notice period as is specified in the applicable Final Terms) in each case against certification of beneficial ownership as described above unless such certification has already been given, provided that purchasers in the United States and certain U.S. persons will not be able to receive definitive Bearer Notes. The holder of a Temporary Bearer Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Bearer Global Note for an interest in a Permanent Bearer Global Note or for definitive Bearer Notes is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Bearer Global Note will be made through Euroclear and/or Clearstream, Luxembourg against presentation or surrender (as the case may be) of the Permanent Bearer Global Note without any requirement for certification. The applicable Final Terms will specify that a Permanent Bearer Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Bearer Notes with, where applicable, interest coupons and talons attached upon either (i) not less than 60 days’ written notice from Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Bearer Global Note) to the Principal Paying Agent as described therein or (ii) only upon the occurrence of an Exchange Event. For these purposes, “**Exchange Event**” means that (i) an Event of Default (as defined in Condition 9) has occurred and is continuing, (ii) the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no alternative clearing system is available or (iii) the Issuer has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Permanent Bearer Global Note in definitive form. The Issuer will promptly give notice to Noteholders in accordance with Condition 13 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Bearer Global Note) may give notice to the Principal Paying Agent requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iii) above, the Issuer may also give notice to the Principal Paying Agent requesting exchange. Any such exchange shall occur not later than 60 days after the date of receipt of the first relevant notice by the Principal Paying Agent.

The exchange of a Permanent Bearer Global Note for definitive Bearer Notes upon notice from Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder) or at any time at the request of the Issuer should not be expressed to be applicable in the applicable Final Terms if the Bearer Notes are

Form of the Notes

issued with a minimum Specified Denomination such as €100,000 (or its equivalent in another currency) plus one or more higher integral multiples of another smaller amount such as €1,000 (or its equivalent in another currency). Furthermore, such Specified Denomination construction is not permitted in relation to any issue of Bearer Notes which is to be represented on issue by a Temporary Bearer Global Note exchangeable for definitive Bearer Notes.

The following legend will appear on all Bearer Notes, which have an original maturity of more than 1 year and on all interest coupons and talons relating to such Notes:

“ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(J) AND 1287(A) OF THE INTERNAL REVENUE CODE.”

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Bearer Notes or interest coupons and will not be entitled to capital gains treatment in respect of any gain on any sale, disposition, redemption or payment of principal in respect of such Notes or interest coupons.

Notes which are represented by a Bearer Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

Registered Notes

The Registered Notes of each Tranche offered and sold in reliance on Regulation S, which will be sold to non-U.S. persons outside the United States, will initially be represented by a global note in registered form (a “**Regulation S Global Note**”). Prior to expiry of the distribution compliance period (as defined in Regulation S) applicable to each Tranche of Notes, beneficial interests in a Regulation S Global Note may not be offered or sold to, or for the account or benefit of, a U.S. person save as otherwise provided in Condition 2 and may not be held otherwise than through Euroclear or Clearstream, Luxembourg and such Regulation S Global Note will bear a legend regarding such restrictions on transfer.

The Registered Notes of each Tranche may only be offered and sold in the United States or to U.S. persons in private transactions to “qualified institutional buyers” within the meaning of Rule 144A under the Securities Act (“**QIBs**”). The Registered Notes of each Tranche sold to QIBs will be represented by a global note in registered form (a “**Rule 144A Global Note**” and, together with a Regulation S Global Note, the “**Registered Global Notes**”).

Registered Global Notes will either (i) be deposited with a custodian for, and registered in the name of a nominee of, The Depository Trust Company (“**DTC**”) for the accounts of Euroclear and Clearstream, Luxembourg or (ii) be deposited with a common depository for, and registered in the name of a common nominee of, Euroclear and Clearstream, Luxembourg, as specified in the applicable Final Terms. Persons holding beneficial interests in Registered Global Notes will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of definitive Notes in fully registered form.

The Rule 144A Global Note will be subject to certain restrictions on transfer set forth therein and will bear a legend regarding such restrictions.

Payments of principal, interest and any other amount in respect of the Registered Global Notes will, in the absence of provision to the contrary, be made to the person shown on the Register (as defined in Condition 5(d)) as the registered holder of the Registered Global Notes. None of the Issuer, any Paying Agent or the Registrar will have any responsibility or liability for any aspect of the records relating to or payments or deliveries made on account of beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Payments of principal, interest or any other amount in respect of the Registered Notes in definitive form will, in the absence of provision to the contrary, be made to the persons shown on the Register on the relevant Record Date (as defined in Condition 5(d)) immediately preceding the due date for payment in the manner provided in that Condition.

Interests in a Registered Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Registered Notes without interest coupons or talons attached only upon the occurrence of an Exchange Event. For these purposes, “**Exchange Event**” means that (i) an Event of Default (as defined in Condition 9) has occurred and is continuing, (ii) in the case of Notes registered in the name of a nominee for DTC, either DTC has notified the Issuer that it is unwilling or unable to continue to act as depository for the Notes and no alternative clearing system is available or DTC has ceased to constitute a clearing agency registered under the Exchange Act and no alternative clearing system is available, (iii) in

Form of the Notes

the case of Notes registered in the name of a nominee for a common depository for Euroclear and Clearstream, Luxembourg, the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system is available or (iv) the Issuer has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Registered Global Note in definitive form.

The Issuer will promptly give notice to Noteholders in accordance with Condition 13 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, DTC, Euroclear and/or Clearstream, Luxembourg or any person acting on their behalf (acting on the instructions of any holder of an interest in such Registered Global Note) may give notice to the Registrar requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iv) above, the Issuer may also give notice to the Registrar requesting exchange. Any such exchange shall occur not later than 10 days after the date of receipt of the first relevant notice by the Registrar.

Transfer of Interests

Interests in a Registered Global Note may, subject to compliance with all applicable restrictions, be transferred to a person who wishes to hold such interest in another Registered Global Note. No beneficial owner of an interest in a Registered Global Note will be able to transfer such interest, except in accordance with the applicable procedures of DTC, Euroclear and Clearstream, Luxembourg, in each case to the extent applicable. Registered Notes are also subject to the restrictions on transfer set forth therein and will bear a legend regarding such restrictions, see "Subscription and Sale and Transfer and Selling Restrictions".

General

Pursuant to the Agency Agreement (as defined under "Terms and Conditions of the Notes"), the Principal Paying Agent or the Registrar shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes at a point after the Issue Date of the further Tranche, the Notes of such further Tranche shall be assigned a common code and ISIN and, where applicable, a CUSIP and CINS number which are different from the common code, ISIN, CUSIP and CINS assigned to Notes of any other Tranche of the same Series until such time as the Tranches are consolidated and form a single series, which shall not be prior to the expiry of the distribution compliance period applicable to the Notes of such Tranche.

For so long as any of the Notes are represented by a Global Note held on behalf of Euroclear and/or Clearstream, Luxembourg each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer and its agent as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on such nominal amount of such Notes, for which purpose the bearer of the relevant Bearer Global Note or the registered holder of the relevant Registered Global Note shall be treated by the Issuer and its agents as the holder of such nominal amount of such Notes in accordance with and subject to the terms of the relevant Global Note and the expressions "**Noteholder**" and "**holder of Notes**" and related expressions shall be construed accordingly.

So long as DTC or its nominee is the registered owner or holder of a Registered Global Note, DTC or such nominee, as the case may be, will be considered the sole owner or holder of the Notes represented by such Registered Global Note for all purposes under the Agency Agreement and such Notes except to the extent that in accordance with DTC's published rules and procedures any ownership rights may be exercised by its participants or beneficial owners through participants.

Any reference herein to Euroclear and/or Clearstream, Luxembourg and/or DTC shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms.

A Note may be accelerated by the holder thereof in certain circumstances described in Condition 9. A beneficial interest in a Registered Global Note will, subject to compliance with all applicable legal and regulatory restrictions, be transferable for Notes in definitive form or for a beneficial interest in another Registered Global Note only in the authorised denominations set out in the applicable Final Terms and only in accordance with the rules and operating procedures for the time being of DTC, Euroclear or Clearstream, Luxembourg, as the case may be, and in accordance with the terms and conditions specified in the Agency Agreement. Prior to expiry of the applicable Distribution Compliance Period, transfers by the holder of, or of a beneficial interest in, a Regulation S Global Note to a transferee in the United States or who is a U.S. person will only be made:

- (i) upon receipt by the Registrar of a written certification substantially in the form set out in the Agency Agreement, amended as appropriate (a “**Transfer Certificate**”), copies of which are available from the specified office of the Registrar or any Transfer Agent, from the transferor of the Note or beneficial interest therein to the effect that such transfer is being made to a person whom the transferor reasonably believes is a QIB in a transaction meeting the requirements of Rule 144A; or
- (ii) otherwise pursuant to the Securities Act or an exemption therefrom, subject to receipt by the Issuer of such satisfactory evidence as the Issuer may reasonably require, which may include an opinion of U.S. counsel, that such transfer is in compliance with any applicable securities laws of any State of the United States,

and, in each case, in accordance with any applicable securities laws of any State of the United States or any other jurisdiction.

In the case of Condition 2(e)(i) above, such transferee may take delivery through a Legended Note in global or definitive form. After expiry of the applicable Distribution Compliance Period (i) beneficial interests in Regulation S Global Notes registered in the name of a nominee for DTC may be held through DTC directly, by a participant in DTC, or indirectly through a participant in DTC and (ii) such certification requirements will no longer apply to such transfers.

(f) Transfers of interests in Legended Notes

Transfers of Legended Notes or beneficial interests therein may be made:

Terms and Conditions of the Notes

Upon the transfer, exchange or replacement of Legended Notes, or upon specific request for removal of the Legend, the Registrar shall deliver only Legended Notes or refuse to remove the Legend, as the case may be, unless there is delivered to the Issuer such satisfactory evidence as may reasonably be required by the Issuer, which may include an opinion of U.S. counsel, that neither the Legend nor the restrictions on transfer set forth therein are required to ensure compliance with the provisions of the Securities Act.

(g) Exchanges and transfers of Registered Notes generally

The Issuer is an ADI. Section 13A(3) of the Banking Act provides that, in the event that an ADI becomes unable to meet its obligations or suspends payment, the assets of the ADI in Australia are available to meet specified liabilities of the ADI (including, in the case of the Issuer, the Notes) in priority to all other liabilities of the ADI. 4. INTEREST

(a) Interest on Fixed Rate Notes

Each Fixed Rate Note bears interest from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

Except as provided in the applicable Final Terms, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on (but excluding) such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified.

As used in these Terms and Conditions, “**Fixed Interest Period**” means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

Except in the case of Notes in definitive form where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, interest shall be calculated in respect of any period by applying the Rate of Interest to:

- (A) in the case of Fixed Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such Global Note; or
- (B) in the case of Fixed Rate Notes in definitive form, the Calculation Amount,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Fixed Rate Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination without any further rounding.

In these Terms and Conditions the following terms have the following meanings:

“**Day Count Fraction**” means, in respect of the calculation of an amount of interest in accordance with this Condition 4(a):

- (i) if “**Actual/Actual (ICMA)**” is specified in the applicable Final Terms:
 - (A) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the “**Accrual Period**”) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; or
 - (B) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (1) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
 - (2) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
- (ii) if “**30/360**” is specified in the applicable Final Terms, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360; and
- (iii) if “**RBA Bond Basis**” is specified in the applicable Final Terms, one divided by the number of Interest Payment Dates in each twelve-month period (or where the relevant period does not constitute a complete Interest Period, the actual number of days in the relevant period divided by 365 (or, if any portion of the relevant period falls in a leap year, the sum of:

Terms and Conditions of the Notes

- (1) the actual number of days in that portion of the relevant period falling in a leap year divided by 366; and
- (2) the actual number of days in that portion of the relevant period falling in a non-leap year divided by 365).

“**Determination Period**” means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

“**sub-unit**” means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, one cent.

(b) Interest on Floating Rate Notes

(i) Interest Payment Dates

Each Floating Rate Note bears interest from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (A) the Specified Interest Payment Date(s) in each year as specified in the applicable Final Terms; or
- (B) if no Specified Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (together with the Specified Interest Payment Date(s), each an “**Interest Payment Date**”) which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period (which expression shall, in these Terms and Conditions, mean the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date).

If a business day convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the business day convention specified is:

- (1) in any case where Specified Periods are specified in accordance with Condition 4(b)(i)(B) above, the Floating Rate Convention, such Interest Payment Date (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (B) below shall apply *mutatis mutandis* or (ii) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (A) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (B) each subsequent Interest Payment Date shall be the last Business Day in the month which falls within the Specified Period (specified in the applicable Final Terms) after the preceding applicable Interest Payment Date occurred; or
- (2) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (3) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (4) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In these Terms and Conditions, “**Business Day**” means a day which is both:

- (A) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in any Additional Business Centre specified in the applicable Final Terms; and
- (B) either (1) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which, if the Specified Currency is Australian dollars, shall be Sydney), or (2) in relation to any sum payable in euro, a day on

Terms and Conditions of the Notes

which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) System (the “**TARGET2 System**”) is open.

(ii) Rate of Interest

The Rate of Interest payable from time to time in respect of Floating Rate Notes will be determined in the manner specified in the applicable Final Terms.

(A) ISDA Determination for Floating Rate Notes

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this sub-paragraph (A), “**ISDA Rate**” for an Interest Period means a rate equal to the Floating Rate that would be determined by the Principal Paying Agent under an interest rate swap transaction if the Principal Paying Agent were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the First Tranche of the Notes (the “**ISDA Definitions**”) and under which:

- (1) the Floating Rate Option is as specified in the applicable Final Terms;
- (2) the Designated Maturity is a period specified in the applicable Final Terms; and
- (3) the relevant Reset Date is the day specified in the applicable Final Terms.

For the purposes of this sub-paragraph (A), “**Floating Rate**”, “**Calculation Agent**”, “**Floating Rate Option**”, “**Designated Maturity**” and “**Reset Date**” have the meanings given to those terms in the ISDA Definitions.

(B) Screen Rate Determination for Floating Rate Notes

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (1) the offered quotation; or
- (2) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate (being either LIBOR or EURIBOR, as specified in the applicable Final Terms) which appears or appear, as the case may be, on the Relevant Screen Page (or each replacement page on that service which displays the information) as at 11.00 a.m. (London time in the case of LIBOR, or Brussels time, in the case of EURIBOR) on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Principal Paying Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Principal Paying Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

The Agency Agreement contains provisions for determining the Rate of Interest in the event that the Relevant Screen Page is not available or if, in the case of (1) above, no such offered quotation appears or, in the case of (2) above, fewer than three such offered quotations appear, in each case as at the time specified in the preceding paragraph.

(iii) Minimum and/or Maximum Interest Rate

If the applicable Final Terms specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (ii) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Final Terms specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (ii) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

Terms and Conditions of the Notes

(iv) Determination of Rate of Interest and Calculation of Interest Amounts

The Principal Paying Agent will, at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period.

The Principal Paying Agent will calculate the amount of interest (the “**Interest Amount**”) payable on the Floating Rate Notes for the relevant Interest Period by applying the Rate of Interest to:

- (i) in the case of Floating Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Notes represented by such Global Note; or
- (ii) in the case of Floating Rate Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Floating Rate Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for each Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination without any further rounding.

“**Day Count Fraction**” means, in respect of the calculation of an amount of interest for any Interest Period:

- (1) if “**Actual/Actual (ISDA)**” or “**Actual/Actual**” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (A) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366 and (B) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);
- (2) if “**Actual/365 (Fixed)**” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365;
- (3) if “**Actual/365 (Sterling)**” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;
- (4) if “**Actual/360**” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 360;

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“**Y₁**” is the year, expressed as a number, in which the first day of the Interest Period falls;

“**D₂**” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30;

- (6) if “**30E/360**” or “**Eurobond Basis**” is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

Terms and Conditions of the Notes

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Interest Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“D₁” is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31, in which case D₂ will be 30;

- (7) if “**30E/360 (ISDA)**” is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Interest Period falls;

“D₁” is the first calendar day, expressed as a number, of the Interest Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (i) that day is the last day of February but not the Maturity Date (if applicable) or (ii) such number would be 31, in which case D₂ will be 30.

(v) Linear Interpolation

Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Principal Paying Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Final Terms) or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the applicable Final Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Principal Paying Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

“**Designated Maturity**” means, in relation to Screen Rate Determination, the period of time designated in the Reference Rate.

(vi) Notification of Rate of Interest and Interest Amounts

The Principal Paying Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer and any stock exchange on

Terms and Conditions of the Notes

which the relevant Floating Rate Notes are for the time being traded and notice thereof to be published in accordance with Condition 13 as soon as possible after their determination but in no event later than the fourth London Business Day (as defined below) thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange or other relevant authority on which the relevant Floating Rate Notes are for the time being traded or by which they have been admitted to listing and to the Noteholders in accordance with Condition 13. For the purposes of this paragraph, the expression “**London Business Day**” means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in London.

(vii) Notifications to be Final

All notifications, communications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 4(b), by the Principal Paying Agent, shall (in the absence of default, bad faith or manifest error by them or any of their directors, officers, employees or agents) be binding on the Issuer, the Principal Paying Agent, the other Agents and all Noteholders and Couponholders and (in the absence of the above) no liability to the Issuer, the Noteholders or the Couponholders shall attach to the Principal Paying Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions under this Condition.

(c) Exempt Notes

The rate or amount of interest payable in respect of Exempt Notes which are not also Fixed Rate Notes or Floating Rate Notes shall be determined in the manner specified in the applicable Pricing Supplement.

(d) Accrual of Interest

Each Note (or, in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the date for its redemption unless payment of principal is improperly withheld or refused. In such event, interest will continue to accrue until whichever is the earlier of:

- (1) the date on which all amounts due in respect of such Note have been paid; and
- (2) five days after the date on which the full amount of the moneys payable in respect of such Note has been received by the Principal Paying Agent or the Registrar, as the case may be, and notice to that effect has been given to the Noteholders in accordance with Condition 13.

5. PAYMENTS

(a) Method of Payment

Subject as provided below:

- (i) payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with, or, at the option of the payee, by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars, shall be Sydney); and
- (ii) payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque.

Payments will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in any applicable jurisdiction, but without prejudice to the provisions of Condition 7, and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the “**Code**”) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto (“**FATCA**”). For the avoidance of doubt, any amounts to be paid in respect of the Notes will be paid net of any deduction or withholding imposed or required pursuant to FATCA and, notwithstanding any other provision of these Conditions, no Additional Amounts (as defined in Condition 7) will be required to be paid on account of any such deduction or withholding.

(b) Presentation of definitive Bearer Notes and Coupons

Payments of principal in respect of definitive Bearer Notes will (subject as provided below) be made in the manner provided in paragraph (a) above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of definitive Bearer Notes, and payments of interest in respect of

Terms and Conditions of the Notes

definitive Bearer Notes will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside Australia and the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia, and its possessions)).

Fixed Rate Notes in definitive bearer form (other than Long Maturity Notes (as defined below)) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant Date (as defined in Condition 7) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 8) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note in definitive bearer form becoming due and repayable prior to its Maturity Date all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note or Long Maturity (as defined below) Note in definitive form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A “**Long Maturity Note**” is a Fixed Rate Note (other than a Fixed Rate Note which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such Note.

If the due date for redemption of any definitive Bearer Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant definitive Bearer Note.

(c) Payments in respect of Bearer Global Notes

Payments of principal and interest (if any) in respect of Notes represented by any Global Note in bearer form will (subject as provided below) be made in the manner specified above in relation to definitive Bearer Notes or otherwise in the manner specified in the relevant Global Note against presentation or surrender, as the case may be, of such Global Note at the specified office of any Paying Agent outside the United States and Australia. A record of each such payment, distinguishing between any payment of principal and any payment of interest, will be made on such Global Note by the Paying Agent to which it was presented and such record shall be prima facie evidence that the payment in question has been made.

(d) Payments in respect of Registered Notes

Payments of principal in respect of each Registered Note (whether or not in global form) will be made against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the Registered Note at the specified office of the Registrar or any of the Paying Agents. Such payments will be made by transfer to the Designated Account (as defined below) of the holder (or the first named of joint holders) of the Registered Note appearing in the register of holders of the Registered Notes maintained by the Registrar (the “**Register**”) at the close of business on the third business day (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) before the relevant due date. Notwithstanding the previous sentence, if (i) a holder does not have a Designated Account or (ii) the principal amount of the Notes held by a holder is less than U.S.\$250,000 (or its approximate equivalent in any other Specified Currency), payment will instead be made by a cheque in the Specified Currency drawn on a Designated Bank (as defined below). For these purposes, “**Designated Account**” means the account (which, in the case of a payment in Japanese yen to a non-resident of Japan, shall be a non-resident account) maintained by a holder with a Designated Bank and identified as such in the Register and “**Designated Bank**” means (in the case of payment in a Specified Currency other than euro) a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars shall be Sydney) and (in the case of a payment in euro) any bank which processes payments in euro.

Terms and Conditions of the Notes

Payments of interest in respect of each Registered Note (whether or not in global form) will be made by a cheque in the Specified Currency drawn on a Designated Bank and mailed by uninsured mail on the business day in the city where the specified office of the Registrar is located immediately preceding the relevant due date to the holder (or the first named of joint holders) of the Registered Note appearing in the Register at the close of the business day (in the Clearing Systems) immediately preceding the relevant due date (the “**Record Date**”) at its address shown in the Register on the Record Date and at its risk. Upon application of the holder to the specified office of the Registrar not less than three business days in the city where the specified office of the Registrar is located before the due date for any payment of interest in respect of a Registered Note, the payment may be made by transfer on the due date in the manner provided in the preceding paragraph. Any such application for transfer shall be deemed to relate to all future payments of interest (other than interest due on redemption) in respect of the Registered Notes which become payable to the holder who has made the initial application until such time as the Registrar is notified in writing to the contrary by such holder. Payment of the interest due in respect of each Registered Note on redemption will be made in the same manner as payment of the principal amount of such Registered Note.

Holders of Registered Notes will not be entitled to any interest or other payment for any delay in receiving any amount due in respect of any Registered Note as a result of a cheque posted in accordance with this Condition arriving after the due date for payment or being lost in the post. No commissions or expenses shall be charged to such holders by the Registrar in respect of any payments of principal or interest in respect of the Registered Notes.

All amounts payable to DTC or its nominee as registered holder of a Registered Global Note in respect of Notes denominated in a Specified Currency other than U.S. dollars shall be paid by transfer by the Registrar to an account in the relevant Specified Currency of the Exchange Agent on behalf of DTC or its nominee for conversion into and payment in U.S. dollars in accordance with the provisions of the Agency Agreement.

None of the Issuer or the Agents will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

(e) General provisions applicable to payments

The holder of a Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear, Clearstream, Luxembourg or DTC as the beneficial holder of a particular nominal amount of Notes represented by such Global Note must look solely to Euroclear, Clearstream, Luxembourg or DTC, as the case may be, for its share of each payment so made by the Issuer to, or to the order of, the holder of such Global Note.

Notwithstanding the foregoing provisions of this Condition, if any amount of principal and/or interest in respect of Bearer Notes is payable in U.S. dollars, such U.S. dollar payments of principal and/or interest in respect of such Notes will be made at the specified office of a Paying Agent in the United States if:

- (i) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Bearer Notes in the manner provided above when due;
- (ii) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and
- (iii) such payment is then permitted under United States law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

(f) Payment Day

If the date for payment of any amount in respect of any Note or Coupon is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay. For these purposes, “**Payment Day**” means any day which (subject to Condition 8) is:

- (i) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:

Terms and Conditions of the Notes

- (A) the case of Notes in definitive form only, the relevant place of presentation;
 - (B) each Additional Financial Centre specified in the applicable Final Terms; and
- (ii) either (1) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which if the Specified Currency is Australian dollars shall be Sydney) or (2) in relation to any sum payable in euro, a day on which the TARGET2 system is open; and
 - (iii) in the case of any payment in respect of a Registered Global Note denominated in a Specified Currency other than U.S. dollars and registered in the name of DTC or its nominee and in respect of which an accountholder of DTC (with an interest in such Registered Global Note) has elected to receive any part of such payment in U.S. dollars, a day on which commercial banks are not authorised or required by law or regulation to be closed in New York City.

(g) Interpretation of Principal and Interest

Any reference in these Terms and Conditions to principal in respect of the Notes shall be deemed to include, as applicable:

- (i) any Additional Amounts which may be payable with respect to principal under Condition 7;
- (ii) the Final Redemption Amount of the Notes;
- (iii) the Early Redemption Amount of the Notes;
- (iv) the Optional Redemption Amount(s) (if any) of the Notes;
- (v) in relation to Zero Coupon Notes, the Amortised Face Amount (as defined in Condition 6(f)); and
- (vi) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

Any reference in these Terms and Conditions to interest in respect of the Notes shall be deemed to include, as applicable, any Additional Amounts which may be payable with respect to interest under Condition 7.

(h) Order of Application

Any payment made by the Issuer in respect of a Note is deemed to be made, and will be applied, in the following order:

- (a) first, in payment of interest due but unpaid;
- (b) second, in payment of other amounts due in respect of the relevant Note, that are not principal or interest; and
- (c) third, in repayment of the principal amount of the Note.

6. REDEMPTION AND PURCHASE

(a) At Maturity

Unless previously redeemed or purchased and cancelled as specified below, each Note will be redeemed by the Issuer at its Final Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms in the relevant Specified Currency on the Maturity Date.

(b) Redemption for Tax Reasons

The Issuer may, at its option, redeem the Notes in whole, but not in part, at any time (if this Note is not a Floating Rate Note) or on any Interest Payment Date (if this Note is a Floating Rate Note), on giving not less than the minimum period and not more than the maximum period of notice specified in the applicable Final Terms to the Principal Paying Agent and, in accordance with Condition 13, the Noteholders (which notice shall be irrevocable), if: (i) as a result of any change in, or amendment to, the laws or regulations of the Commonwealth of Australia or the State of Queensland or any political sub-division thereof, or any authority therein or thereof having power to tax, or any change in the application or official interpretation of those laws or regulations, which change or amendment becomes effective after the Issue Date of the First Tranche of the Notes, on the occasion of the next payment due in respect of the Notes the Issuer would be required to pay Additional Amounts as provided or referred to in Condition 7, and (ii) the requirement cannot be avoided by the Issuer taking reasonable measures available to it. Prior to the publication of any notice of redemption pursuant to this Condition 6(b), the Issuer shall deliver to the

Terms and Conditions of the Notes

Principal Paying Agent a certificate signed by two authorised signatories of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred, and an opinion of independent legal advisers of recognised standing to the effect that the Issuer has or will become obliged to pay such Additional Amounts as a result of such change or amendment. Upon the expiry of any notice as is referred to in this paragraph the Issuer shall be bound to redeem the Notes to which the notice refers in accordance with the provisions of this paragraph.

Notes redeemed pursuant to this Condition 6(b) will be redeemed at their Early Redemption Amount referred to in paragraph (f) above together (if appropriate) with interest accrued to (but excluding) the date of redemption.

(c) [This Condition is no longer applicable]

(d) Redemption at the Option of the Issuer

If Issuer Call is specified as being applicable in the applicable Final Terms, the Issuer, having given not less than the minimum period and not more than the maximum period of notice specified in the applicable Final Terms to the Noteholders in accordance with Condition 13 (which notice shall be irrevocable and shall specify the date fixed for redemption), may redeem all or some only of the Notes then outstanding on any Optional Redemption Date and at the Optional Redemption Amount(s) specified in, or determined in the manner specified in, the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the relevant Optional Redemption Date. If redemption in part is specified as being applicable in the applicable Final Terms, any such redemption must be of a nominal amount not less than the Minimum Redemption Amount and not more than the Maximum Redemption Amount in each case as may be specified in the applicable Final Terms.

In the case of a partial redemption of Notes, the Notes to be redeemed (“**Redeemed Notes**”) will be selected individually by lot, in the case of Redeemed Notes represented by definitive Notes, and in accordance with the rules of Euroclear and/or Clearstream, Luxembourg and/or DTC, in the case of Redeemed Notes represented by a Global Note, not more than 30 days prior to the date fixed for redemption (such date of selection being hereinafter called the “**Selection Date**”). In the case of Redeemed Notes represented by definitive Notes, a list of the serial numbers of such Redeemed Notes will be published in accordance with Condition 13 not less than 15 days prior to the date fixed for redemption. No exchange of the relevant Global Note will be permitted during the period from (and including) the Selection Date to (and including) the date fixed for redemption pursuant to this paragraph (d) and notice to that effect shall be given by the Issuer to the Noteholders in accordance with Condition 13 at least 5 days prior to the Selection Date.

(e) Redemption at the Option of the Noteholders

If Investor Put is specified as being applicable in the applicable Final Terms, upon the holder of any Note giving to the Issuer in accordance with Condition 13 not less than the minimum period and not more than the maximum period of notice specified in the applicable Final Terms the Issuer will, upon the expiry of such notice, redeem, subject to, and in accordance with, the terms specified in the applicable Final Terms, in whole (but not in part), such Note on the Optional Redemption Date and at the Optional Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms together (if appropriate) with interest accrued to (but excluding) the Optional Redemption Date. Registered Notes may be redeemed under this Condition 6(e) in any multiple of their lowest Specified Denomination. To exercise the right to require redemption of this Note the holder of this Note must deliver, at the specified office of any Paying Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes) at any time during normal business hours of such Paying Agent or, as the case may be, the Registrar, falling within the notice period, accompanied by a duly completed and signed notice of exercise in the form (for the time being current) obtainable from any specified office of any Paying Agent or, as the case may be, the Registrar (a “**Put Notice**”) and in which the holder must specify a bank account outside Australia (or, if payment is by cheque, an address (which is outside Australia)) to which payment is to be made under this Condition and, in the case of Registered Notes, the nominal amount thereof to be redeemed and, if less than the full nominal amount of the Registered Notes so surrendered is to be redeemed, an address to which a new Registered Note in respect of the balance of such Registered Notes is to be sent subject to and in accordance with the provisions of Condition 2(b). If this Note is in definitive form, the Put Notice must be accompanied by this Note or evidence satisfactory to the Paying Agent concerned that this Note will, following delivery of the Put Notice, be held to its order or under its control.

Any Put Notice given by a holder of any Note pursuant to this paragraph (e) shall be irrevocable except where prior to the due date of redemption an Event of Default shall have occurred and be continuing in

Terms and Conditions of the Notes

which event such holder, at its option, may elect by notice to the Issuer to withdraw the notice given pursuant to this paragraph (e) and instead to declare such Note forthwith due and payable pursuant to Condition 9.

(f) Early Redemption Amounts

For the purpose of paragraph (b) above and Condition 9, each Note will be redeemed at the Early Redemption Amount calculated as follows:

- (i) in the case of a Note with a Final Redemption Amount equal to the Issue Price, at the Final Redemption Amount thereof;
- (ii) in the case of a Note (other than a Zero Coupon Note) with a Final Redemption Amount which is or may be less or greater than the Issue Price or which is payable in a Specified Currency other than that in which the Note is denominated, at the amount specified in, or determined in the manner specified in, the applicable Final Terms or, if no such amount or manner is so specified in the Final Terms, at their nominal amount; or
- (iii) in the case of a Zero Coupon Note, at an amount (the “**Amortised Face Amount**”) calculated in accordance with the following formula:

$$\text{Early Redemption Amount} = \text{RP} \times (1 + \text{AY})^y$$

where:

“**RP**” means the Reference Price;

“**AY**” means the Accrual Yield expressed as a decimal; and

“**y**” is a fraction the numerator of which is equal to the number of days (calculated on the basis of a 360-day year consisting of 12 months of 30 days each) from (and including) the Issue Date of the First Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator of which is 360,

or on such other calculation basis as may be specified in the applicable Final Terms.

(g) Purchases

The Issuer or any of its Subsidiaries (as that term is defined in the Corporations Act 2001 of Australia) may, at any time purchase Notes (provided that, in the case of definitive Bearer Notes, all unmatured Coupons and Talons appertaining thereto are purchased therewith) at any price in the open market or otherwise. If purchases are made by tender, tenders must be available to all Noteholders alike. Such Notes may be held, reissued, resold or, at the option of the Issuer, surrendered to any Paying Agent and/or Registrar for cancellation.

(h) Cancellation

All Notes which are redeemed will forthwith be cancelled (together with all unmatured Coupons attached thereto or surrendered therewith at the time of redemption). All Notes so cancelled and the Notes purchased and cancelled pursuant to paragraph (g) above (together with all unmatured Coupons cancelled therewith) shall be forwarded to the Principal Paying Agent and cannot be reissued or resold.

(i) Late payment on Zero Coupon Notes

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to paragraph (a), (b), (d) or (e) above or upon its becoming due and repayable as provided in Condition 9 is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the amount calculated as provided in paragraph (f)(iii) above as though the references therein to the date fixed for the redemption or the date upon which such Zero Coupon Note becomes due and repayable were replaced by references to the date which is the earlier of:

- (i) the date on which all amounts due in respect of such Zero Coupon Note have been paid; and
- (ii) the fifth day after the date on which the full amount of the moneys payable has been received by the Principal Paying Agent or the Registrar and notice to that effect has been given to the Noteholders in accordance with Condition 13.

7. TAXATION

- (a) All payments in respect of the relevant Notes and Coupons by the Issuer shall be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature (“**Taxes**”) imposed or levied by or on behalf of the

Terms and Conditions of the Notes

Commonwealth of Australia or the State of Queensland, or any political sub-division thereof, or any authority therein or thereof having power to tax, unless the withholding or deduction of the Taxes is required by law. In that event, the Issuer will pay such additional amounts (“**Additional Amounts**”) as may be necessary in order to ensure that the net amounts received by the Noteholders and Couponholders after such withholding or deduction shall equal the respective amounts which would have been receivable in respect of the Notes or, as the case may be, Coupons in the absence of the withholding or deduction; except that no Additional Amounts shall be payable in relation to any payment in respect of any Note or Coupon:

- (i) to a holder who is liable to the Taxes in respect of the Note or Coupon by reason of its having some connection with the Commonwealth of Australia or the State of Queensland other than the mere holding of the Note or Coupon or receipt of principal or interest in respect thereof, provided that such a holder shall not be regarded as being connected with the Commonwealth of Australia for the reason that such a holder is a resident of the Commonwealth of Australia within the meaning of the Income Tax Assessment Act 1936 (the "**Australian Tax Act**") where, and to the extent that, such tax is payable by reason only of Section 128B(2A) of the Australian Tax Act; or
- (ii) presented for payment more than 30 days after the Relevant Date except to the extent that a holder would have been entitled to Additional Amounts on presenting the same for payment on the last day of the period of 30 days assuming that day to have been an Interest Payment Date; or
- (iii) on account of taxes, duties, assessments or governmental charges which are payable by reason of the Noteholder, Couponholder, or any other person having a beneficial interest in the Note, being an associate of the Issuer within the meaning of Section 128F of the Australian Tax Act; or
- (iv) where such withholding or deduction is imposed on a payment to an individual and is required to be made pursuant to European Council Directive 2003/48/EC or any law implementing or complying with, or introduced in order to conform to, such Directive;
- (v) presented for payment by or on behalf of a holder who would be able to avoid such withholding or deduction by presenting the relevant Note or Coupon to another Paying Agent in a Member State of the European Union; or

Suncorp-Metway Limited (the “Issuer”)

History of Suncorp

Suncorp’s history dates back more than 100 years involving a number of State and publicly owned banking, insurance and wealth management companies.

In 1902, the Queensland Government established the Agricultural Bank which later became part of Queensland Industry Development Corporation (“**QIDC**”). Suncorp started business in 1916 and was previously known as the State Accident Insurance Office and then the State Government Insurance Office.

Both Suncorp and QIDC were owned by the Queensland Government. On 1 December 1996, they were merged into the publicly listed company, Metway Bank Limited, creating a new allfinanz group headed by Metway Bank Limited (which was renamed as Suncorp-Metway Limited).

On 1 July 2001, the Issuer acquired AMP’s Australian general insurance interests, which increased the Issuer’s consolidated annual premium income to A\$2 billion. The number of general insurance customers doubled and the business mix became more diversified, with growth in personal and commercial lines and the addition of workers compensation lines.

On 20 March 2007, Suncorp merged with Promgroup Limited (ACN 000 746 092) (formerly known as Promina Group Limited) (“**Promina Group**”) (the “**Promina Merger**”). This brought the number of customers to over seven million and lifted total assets to A\$84.9 billion across Australia and New Zealand.

The Promina Group’s operations trace back to 1833 in Australia and 1878 in New Zealand. Shares in Promina were delisted as a consequence of the Promina Merger.

On 15 December 2010, the shareholders of the Issuer approved a non-operating holding company restructuring proposal (“**NOHC Restructure**”) which was implemented on 7 January 2011.

The corporate structure of Suncorp Group Limited and its subsidiaries, is as follows:

PROFIT FORECASTS OR ESTIMATES

The Issuer does not intend to make or imply any profit forecast or profit estimates in this Offering Circular. No statement contained in this Offering Circular should be interpreted as such a forecast or estimate.

REGULATORY OVERSIGHT AND RECENT DEVELOPMENTS

In Australia, the key regulators that supervise and regulate the Issuer's activities are APRA, the RBA, ASIC, the ASX, the ACCC and AUSTRAC.

APRA is the prudential regulator of the Australian financial services industry. APRA establishes and enforces prudential standards and practices designed to ensure that, under all reasonable circumstances, financial promises made by institutions under APRA's supervision are met within a stable, efficient and competitive financial system. The Issuer is an ADI under the Australian Banking Act and, as such, is subject to prudential regulation and supervision by APRA. The Australian Banking Act confers wide powers on APRA which are to be exercised ultimately for the protection of depositors of ADIs in Australia and for the promotion of financial system stability in Australia.

In its supervision of the Issuer and other ADIs, APRA focuses on capital adequacy, liquidity, market risk, credit risk, operational risk, associations with related entities, large exposures to unrelated entities and funds management, securitisation and covered bond activities and governance. APRA discharges its responsibilities by requiring ADIs to regularly provide it with reports which set forth a broad range of

Suncorp-Metway Limited

information, including financial and statistical information relating to their financial position and information in respect of prudential and other matters.

In exercising its powers, APRA works closely with the RBA. The RBA is Australia's central bank and an active participant in the financial markets. It also manages Australia's foreign reserves, issues Australian currency notes, serves as a banker to the Australian Government and, through the Payment Systems Board, supervises the payment system.

ASIC is Australia's corporate, markets and financial services regulator, which regulates Australian companies financial markets, financial services organisations and professionals who deal and advise in investments, superannuation, insurance, deposit taking and credit.

AUSTRAC is Australia's anti-money laundering and counter-terrorism financing regulator and specialist financial intelligence unit.

ACCC is Australia's competition regulator. Its key responsibilities include ensuring that corporations do not act in a way that may have the effect of eliminating or reducing competition.

As with other financial services providers, the Issuer continues to face increased supervision and regulation, particularly in the areas of funding, liquidity, capital adequacy and prudential regulation.

Basel III framework

In December 2010 the Basel Committee on Banking Supervision announced a revised global regulatory capital and liquidity risk management framework, known as Basel III. The regulatory capital framework includes higher capital requirements and better quality capital, requirements to ensure loss absorbency at the point of non-viability, better risk coverage, the introduction of a leverage ratio as a backstop to the risk-based requirement. The liquidity measures are to promote the build-up of capital that can be drawn down in periods of stress with the introduction of a liquidity coverage ratio and net stable funding ratio. APRA's implementation of the Basel III capital framework began on 1 January 2013. APRA's implementation of the leverage coverage ratio will begin on 1 January 2015 in accordance with its final liquidity prudential standards released in December 2013. In addition to the leverage coverage ratio, APRA has announced plans to introduce the net stable funding ratio into its liquidity framework from January 2018. However, until final prudential standards on the net stable funding ratio are published by APRA, the final impact of the reforms that will be adopted by APRA and, in particular, their impact on the capital structure or businesses of the Issuer is uncertain.

Counterparty credit risk

In September 2012, APRA released its final prudential standards on its implementation of the Basel III reforms to the capital framework for counterparty credit risk and other credit exposure which came into effect on 1 January 2013. Under its prudential standards, APRA extended its existing capital framework for counterparty credit risk in bilateral transactions to be the sum of the existing counterparty credit default component that applies under its existing prudential standards and a risk capital Credit Value Adjustment ("**CVA**") risk capital charge introduced as part of the Basel III reforms. The CVA risk capital charge is intended to cover the risk of mark-to-market losses on the expected counterparty credit risk arising from bilateral OTC derivatives. In January 2013, APRA also adopted Basel III reforms on capital charges for exposure to central counterparties arising from over the counter derivatives, exchange traded derivatives and securities financing transactions. These prudential standards will require the Issuer to hold more capital for its counterparty credit risk exposures and other credit exposures.

Australia's financial system inquiry

On 20 December 2013, the Australian government released the final terms of reference for its inquiry into the Australian Financial System ("**Inquiry**"). Among its considerations, the Inquiry has been asked to report to the Australian government on: (i) how the Australian financial system can more efficiently allocate Australian sourced capital to minimise Australia's exposure to volatility in global capital markets; (ii) how Australia can best balance competition, innovation and efficiency, with stability and consumer protection; (iii) the consequences of financial regulation, including its impact on compliance costs, flexibility, innovation and financial services trade; (iv) the corporate governance structures across the financial system and how they affect stakeholder interests; and (iv) the international integration (including international financial regulation) of Australia's financial system.

It is expected that following extensive consultations in the first half of 2014, the Inquiry will publish an interim report in mid-2014 setting out its initial findings. The Issuer has made its own submission to the Inquiry, and has also made a joint submission with three other Regional Australian Banks, to the Inquiry.

Both submissions can be accessed on the Inquiry's publicly available register on its website.

Suncorp-Metway Limited

It is expected that a final report from the Inquiry to the Australian government will be submitted by November 2014. The Inquiry is only at its very preliminary stages. It is not possible, at this stage, to predict with any certainty the impact the Inquiry will have on the reforms that will be adopted by the Australian Government and, in particular, their impact on the capital structure or businesses of the Issuer.

Other developments

In addition, there have also been a series of legislative changes and other regulatory releases from regulators in the various jurisdictions in which the Issuer operates resulting in significant regulatory change for financial institutions, the legal and practical implications of which may not yet be fully understood.

These include:

- recovery and resolution planning requirements;
- greater regulation of derivatives, particularly over the counter (OTC) derivatives, including reporting and stricter capital and margin requirements, the centralised execution and clearing of standardised OTC derivatives and heightened supervision and required registration of swap dealers and major swap and major swap participants;
- increased regulation of investment advisers and the provision of financial advice;
- laws and regulation relating to data protection and privacy, consumer credit and consumer protection and personal property securities; and
- changes to accounting and reporting requirements, tax legislation, regulation relating workers compensation, remuneration and superannuation, competition legislation and bribery, anti-money laundering and counter-terrorist financing laws.

Further changes may occur driven by policy, prudential or political factors.

The Issuer reviews these changes and releases, engages with government, regulators and industry bodies and amends its systems, processes and operations to align with changes and new regulatory requirements as they occur.

SHAREHOLDING

Following the NOHC Restructure (as described above), the Issuer became a wholly owned subsidiary of SBGH Limited ACN 145 980 838.

Australian Taxation

*The following is a summary of the Australian withholding tax treatment under the Income Tax Assessment Acts of 1936 and 1997 of Australia (together, the “**Australian Tax Act**”), the Taxation Administration Act 1953 of Australia and any relevant rulings, judicial decisions or administrative practice, at the date of this Offering Circular of payments of interest (as defined in the Australian Tax Act) on the Notes and certain other matters.*

This summary is not exhaustive and, in particular, does not deal with the position of certain classes of Noteholders (such as dealers in securities). Prospective Noteholders should also be aware that the particular terms of issue of any Series of Notes may affect the tax treatment of that and other Series of Notes.

This summary is not intended to be, nor should it be construed as, legal or tax advice to any particular Noteholder. Noteholders who are in any doubt as to their tax positions should consult their professional advisers.

Australian interest withholding tax

The Australian Tax Act characterises securities as either “debt interests” (for all entities) or “equity interests” (for companies) including for the purposes of Australian interest withholding tax (“**IWT**”) and dividend withholding tax. For Australian IWT purposes, “interest” is defined to include amounts in the nature of, or in substitution for, interest and certain other amounts. The Issuer intends to issue Notes which are to be characterised as “debt interests” for the purposes of the tests contained in Division 974 and the returns paid on the Notes are to be “interest” for the purpose of Section 128F of the Australian Tax Act.

Section 128F of the Australian Tax Act

An exemption from Australian IWT is available if the requirements set out in Section 128F of the Australian Tax Act are satisfied. So far as it applies to the Programme, Section 128F of the Australian Tax Act contains the following requirements:

- (a) the Issuer must be a company and a resident of Australia when it issues the Notes and when interest is paid;
- (b) the Notes are issued in a manner which satisfies the “public offer test”.
- (c) There are five principal ways of satisfying the public offer test., In summary, the five methods are:
 - (i) offers to 10 or more unrelated financiers, securities dealers or entities that carry on the business of investing or dealing in securities in the course of operating in financial markets;
 - (ii) offers to 100 or more investors of a certain type;
 - (iii) offers of listed Notes;
 - (iv) offers via publicly available information sources; and
 - (v) offers to the Dealers who on-sell the Notes within 30 days by one of the preceding methods.

In addition, the issue of a Global Note in a way which satisfies one of the five public offer tests will also satisfy the public offer test;

- (d) the Issuer does not know or have reasonable grounds to suspect, at the time of issue, that the Notes would be, or would later be, acquired either directly or indirectly by an associate of the Issuer and:
 - (i) either:
 - A. the associate is a non-resident and the Notes were not, or would not be, acquired by the associate in carrying on a business in Australia at or through a permanent establishment of the associate in Australia; or
 - B. the associate is a resident of Australia and the Notes were, or would be, acquired by the associate in carrying on a business in a country outside Australia at or through a permanent establishment of the associate in that country; and

Australian Taxation

- (ii) the Notes were not, or would not be, acquired by an associate in the capacity of a dealer, manager or underwriter in relation to the placement of the Notes, or a clearing house, custodian, funds manager or responsible entity of a registered scheme; and
- (e) the Section 128F exemption will also not be available if the Issuer knew, or had reasonable grounds to suspect, at the time of payment of interest, that the interest would be paid to an associate and:
 - (i) either:
 - A. the associate is a non-resident and the payment is not received by the associate in respect of Notes that the associate acquired in carrying on a business in Australia at or through a permanent establishment of the associate in Australia; or
 - B. the associate is a resident of Australia and the payment is received by the associate in respect of Notes that the associate acquired in carrying on a business in a country outside Australia at or through a permanent establishment of the associate in that country; and
 - (ii) the associate does not receive the payment in the capacity of a clearing house, paying agent, custodian, funds manager or responsible entity of a registered scheme.

The Issuer intends (where appropriate) to issue Notes in a manner which will satisfy the public offer test and which otherwise meets the requirements of Section 128F of the Australian Tax Act.

Exemptions under certain double tax conventions

The Australian government has signed new or amended double tax conventions (“**New Treaties**”) with a number of countries (each a “**Specified Country**”). The New Treaties apply to interest derived by a resident of a Specified Country.

Broadly, the New Treaties effectively prevent IWT applying to interest derived by:

- governments of the Specified Countries and certain governmental authorities and agencies in a Specified Country; and
- a “financial institution” resident in a Specified Country which is unrelated to and dealing wholly independently with the Issuer. The term “financial institution” refers to either a bank or any other enterprise which substantially derives its profits by carrying on a business of raising and providing finance. However, interest paid under a back to back loan or an economically equivalent arrangement will not qualify for this exemption.

The Australian Federal Treasury maintains a listing of Australia’s double tax conventions which provides details of country, status, withholding tax rate limits and Australian domestic implementation. This listing is available to the public on the Federal Treasury’s Department website.

Notes in bearer form

Section 126 of the Australian Tax Act imposes a form of withholding tax at the rate of (currently) 45 per cent. (but see below) on the payment of or crediting of interest on certain bearer debt securities (other than certain promissory notes) if the Issuer fails to disclose the names and addresses of the holders to the Australian Taxation Office. Section 126 does not apply to the extent that the debenture is held by a non-resident who is not engaged in carrying on a business in Australia at or through a permanent establishment in Australia where the issue of the Notes satisfied the requirements of Section 128F of the Australian Tax Act or IWT is payable.

The Australian Taxation Office has confirmed that for the purposes of Section 126, the holder of the Notes means the person in possession of the Notes. Therefore, where interests in Notes are held through the Euroclear or Clearstream, Luxembourg systems, the operators of the systems are the holders of the Notes for the purposes of Section 126.

A Bill has recently been introduced into Parliament which proposes to increase the rate of tax under Section 126 of the Tax Act from 45% to 47% for the 2014-15, 2015-16 and 2016-17 income years. However, there is some uncertainty as to whether the Bill will be passed by Parliament in its current form. It will not become law until it is passed by Parliament. Prospective Noteholders should monitor any developments in this area.

Australian Taxation

Payment of additional amounts

As set out in more detail under the heading “Terms and Conditions of the Notes – Taxation”, if the Issuer is required by law to withhold or deduct an amount in respect of certain taxes, the Issuer will, subject to certain exceptions set out under the heading “Terms and Conditions of the Notes – Taxation”, pay such additional amounts as may be necessary in order to ensure that the net amounts received by the Noteholders and Couponholders after such deduction or withholding shall equal the respective amounts which would have been receivable in the absence of the withholding or deduction.

Other tax matters

Under Australian laws presently in effect:

- (i) no Notes will be subject to death, estate or succession duties imposed by Australia, or by any political subdivision or authority therein having power to tax, if held at the time of death;
- (ii) no ad valorem, stamp duty, issue, registration or similar taxes are payable in Australia on the issue of any Notes or the transfer of any Notes;
- (iii) withholding tax is imposed at the rate of (currently) 46.5 per cent. (to be increased to 47 per cent. in respect of assessments on or after 1 July 2014, but see below) on the payment of interest on Notes in registered form unless the relevant Noteholder has quoted a tax file number (“**TFN**”), in certain circumstances an Australian Business Number (“**ABN**”) or proof of some other exception (as appropriate).

Assuming that the requirements of Section 128F of the Australian Tax Act are satisfied with respect to Notes in registered form, these rules should not apply to payments to a Noteholder who is not a resident of Australia for tax purposes and not holding such Notes in carrying on business at or through a permanent establishment in Australia. Such withholding may be made from payments to holders of Notes in registered form who are residents of Australia or non-residents who carry on business at or through a permanent establishment in Australia but who do not quote a TFN, ABN or an appropriate exemption. For the avoidance of doubt, these provisions will not apply to Notes in bearer form.

A Bill was recently introduced into Parliament which proposes to increase the rate of tax under these provisions from 47% to 49% for the 2014-15, 2015-16 and 2016-17 income years. However, there is some uncertainty as to whether the Bill will be passed by Parliament in its current form. It will not become law until it is passed by Parliament. Prospective Noteholders should monitor any developments in this area;

- (iv) the Governor-General may make regulations requiring withholding from certain payments to non-residents of Australia (other than payments of interest and other amounts which are already subject to the current IWT rules or specifically exempt from those rules). Regulations may only be made if the responsible Minister is satisfied the specified payments are of a kind that could reasonably relate to assessable income of foreign residents. The possible application of any future regulations to the proceeds of any sale of the Notes will need to be monitored;
- (v) the Australian Tax Commissioner may give a direction under section 255 of the Australian Tax Act or section 260-5 of Schedule 1 to the Tax Administration Act 1953 of the Commonwealth of Australia (or any similar law) requiring the Issuer to deduct from any payment to a Noteholder any amount in respect of Australian tax payable by the holder. If the Issuer is served with such a direction, then the Issuer will comply with that direction and make any deduction required by that direction. For example, in broad terms, if an amount was owing by the Issuer to a Noteholder and that Noteholder had an outstanding Australian tax-related liability owing to the Australian Tax Commissioner, the Australian Tax Commissioner may issue a notice to the Issuer to require the Issuer to pay the Australian Tax Commissioner the amount owing to the Noteholder;
- (vi) payments in respect of the Notes can be made free and clear of any “supply withholding tax”; and
- (vii) neither the issue of the Notes nor the payment of principal and interest by the Issuer will give rise to a liability for goods and services tax in Australia.

U.S. Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 ("**FATCA**") impose a new reporting regime and potentially a 30 per cent. withholding tax with respect to certain payments to (i) any non-U.S. financial institution (a "**foreign financial institution**", or "**FFI**" (as defined by FATCA)) that does not become a "**Participating FFI**" by entering into an agreement with the U.S. Internal Revenue Service ("**IRS**") to provide the IRS with certain information in respect of its account holders and investors or is not otherwise exempt from or in deemed compliance with FATCA and (ii) any investor (unless otherwise exempt from FATCA) that does not provide information sufficient to determine whether the investor is a U.S. person or should otherwise be treated as holding a "United States Account" of the Issuer (a "**Recalcitrant Holder**"). It is expected that the Issuer will be classified as an FFI.

The new withholding regime will be phased in beginning 1 July 2014 for payments from sources within the United States and will apply to "foreign passthru payments" (a term not yet defined) no earlier than 1 January 2017. This withholding would potentially apply to payments in respect of (i) any Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or after the "grandfathering date", which is the later of (a) 1 July 2014 and (b) the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register, or which are materially modified on or after the grandfathering date and (ii) any Notes characterised as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued. If Notes are issued before the grandfathering date, and additional Notes of the same series are issued on or after that date, the additional Notes may not be treated as grandfathered, which may have negative consequences for the existing Notes, including a negative impact on market price.

The United States and a number of other jurisdictions have announced their intention to negotiate intergovernmental agreements to facilitate the implementation of FATCA (each, an "**IGA**"). Pursuant to FATCA and the "Model 1" and "Model 2" IGAs released by the United States, an FFI in an IGA signatory country could be treated as a "Reporting FI" not subject to withholding under FATCA on any payments it receives. Further, an FFI in a Model 1 IGA jurisdiction would generally not be required to withhold under FATCA or an IGA (or any law implementing an IGA) (any such withholding being "**FATCA Withholding**") from payments it makes. The Model 2 IGA leaves open the possibility that a Reporting FI might in the future be required to withhold as a Participating FFI on foreign passthru payments and payments that it makes to Recalcitrant Holders. Under each model IGA, a Reporting FI would still be required to report certain information in respect of its account holders and investors to its home government or to the IRS.

The Australian Government and the U.S. Government signed an intergovernmental agreement (the "**Australian IGA**") in respect of FATCA on 28 April 2014. The impact of the FATCA regime will depend upon the terms of the Australian implementing legislation, which have not yet been finalised. Under the Australian IGA, Australian FFIs will generally be able to be treated as "deemed compliant" with FATCA. Depending on the nature of the relevant FFI, FATCA Withholding may not be required from payments made with respect to the Notes other than in certain prescribed circumstances. However, under the Australian IGA, an FFI may be required to provide the Australian Taxation Office with information on financial accounts (for example, the Notes) held by U.S. persons and recalcitrant account holders and on payments made to non-participating FFIs.

If the Issuer becomes a Participating FFI under FATCA, the Issuer and financial institutions through which payments on the Notes are made may be required to make FATCA Withholding if (i) any FFI through or to which payment on such Notes is made is not a Participating FFI, a Reporting FI, or otherwise exempt from or in deemed compliance with FATCA or (ii) an investor is a Recalcitrant Holder.

If an amount in respect of FATCA Withholding were to be deducted or withheld from interest, principal or other payments made in respect of the Notes, neither the Issuer nor any paying agent nor any other person would, pursuant to the conditions of the Notes, be required to pay additional amounts as a result of the deduction or withholding. As a result, investors may receive less interest or principal than expected.

Whilst the Notes are in global form and held within the ICSDs, it is expected that FATCA will not affect the amount of any payments made under, or in respect of, the Notes by the Issuer, any paying agent and the common depository, given that each of the entities in the payment chain beginning with the Issuer and ending with the participants in the ICSDs is a major financial institution whose business is dependent on compliance with FATCA and that any alternative approach introduced under an IGA will be unlikely to affect the Notes. The documentation expressly contemplates the possibility that the Notes may go into definitive form and therefore that they may be taken out of the ICSDs. If this were to happen, then a non-

U.S. Foreign Account Tax Compliance Act

FATCA compliant holder could be subject to FATCA Withholding. However, definitive Notes will only be printed in remote circumstances.

FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on regulations, official guidance and model IGAs, all of which are subject to change or may be implemented in a materially different form.

Investors should consult their own tax advisers to determine how these rules may apply to payments they will receive under the Notes and the potential impact of the implementation of the Australian IGA.

TO ENSURE COMPLIANCE WITH IRS CIRCULAR 230, EACH TAXPAYER IS HEREBY NOTIFIED THAT: (A) ANY TAX DISCUSSION HEREIN IS NOT INTENDED OR WRITTEN TO BE USED, AND CANNOT BE USED BY THE TAXPAYER FOR THE PURPOSE OF AVOIDING U.S. FEDERAL INCOME TAX PENALTIES THAT MAY BE IMPOSED ON THE TAXPAYER; (B) ANY SUCH TAX DISCUSSION WAS WRITTEN TO SUPPORT THE PROMOTION OR MARKETING OF THE TRANSACTIONS OR MATTERS ADDRESSED HEREIN; AND (C) THE TAXPAYER SHOULD SEEK ADVICE BASED ON THE TAXPAYER'S PARTICULAR CIRCUMSTANCES FROM AN INDEPENDENT TAX ADVISER.

Book-Entry Clearance Systems

*The information set out below is subject to any change in or reinterpretation of the rules, regulations and procedures of DTC, Euroclear or Clearstream, Luxembourg (together, the “**Clearing Systems**”) currently in effect. The information in this section concerning the Clearing Systems has been obtained from sources that the Issuer believes to be reliable, but none of the Issuer nor any Dealer takes any responsibility for the accuracy thereof. Investors wishing to use the facilities of any of the Clearing Systems are advised to confirm the continued applicability of the rules, regulations and procedures of the relevant Clearing System. None of the Issuer nor any other party to the Agency Agreement will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Notes held through the facilities of any Clearing System or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.*

BOOK-ENTRY SYSTEMS

DTC

DTC has advised the Issuer that it is a limited purpose trust company organised under the New York Banking Law, a “banking organisation” within the meaning of the New York Banking Law, a “clearing corporation” within the meaning of the New York Uniform Commercial Code and a “clearing agency” registered pursuant to Section 17A of the Exchange Act. DTC holds securities that its participants (“**Participants**”) deposit with DTC. DTC also facilitates the settlement among Participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerised book-entry changes in Participants’ accounts, thereby eliminating the need for physical movement of securities certificates. Direct Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organisations. DTC is owned by a number of its Direct Participants and by the New York Stock Exchange, Inc., the American Stock Exchange, Inc. and the National Association of Securities Dealers, Inc. Access to the DTC System is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“**Indirect Participants**”).

Under the rules, regulations and procedures creating and affecting DTC and its operations (the “**Rules**”), DTC makes book-entry transfers of Registered Notes among Direct Participants on whose behalf it acts with respect to Notes accepted into DTC’s book-entry settlement system (“**DTC Notes**”) as described below and receives and transmits distributions of principal and interest on DTC Notes. The Rules are on file with the Securities and Exchange Commission. Direct Participants and Indirect Participants with which beneficial owners of DTC Notes (“**Owners**”) have accounts with respect to the DTC Notes similarly are required to make book-entry transfers and receive and transmit such payments on behalf of their respective Owners. Accordingly, although Owners who hold DTC Notes through Direct Participants or Indirect Participants will not possess Registered Notes, the Rules, by virtue of the requirements described above, provide a mechanism by which Direct Participants will receive payments and will be able to transfer their interest in respect of the DTC Notes.

Purchases of DTC Notes under the DTC system must be made by or through Direct Participants, which will receive a credit for the DTC Notes on DTC’s records. The ownership interest of each actual purchaser of each DTC Note (“**Beneficial Owner**”) is in turn to be recorded on the Direct and Indirect Participant’s records. Beneficial Owners will not receive written confirmation from DTC of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the DTC Notes are to be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in DTC Notes, except in the event that use of the book-entry system for the DTC Notes is discontinued.

To facilitate subsequent transfers, all DTC Notes deposited by Participants with DTC are registered in the name of DTC’s partnership nominee, Cede & Co. The deposit of DTC Notes with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the DTC Notes; DTC’s records reflect only the identity of the Direct Participants to whose accounts such DTC Notes are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be

Book-Entry Clearance Systems

governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to Cede & Co. If less than all of the DTC Notes within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. will consent or vote with respect to DTC Notes. Under its usual procedures, DTC mails an Omnibus Proxy to the Issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the DTC Notes are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal and interest payments on the DTC Notes will be made to DTC. DTC's practice is to credit Direct Participants' accounts on the due date for payment in accordance with their respective holdings shown on DTC's records unless DTC has reason to believe that it will not receive payment on the due date. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such Participant and not of DTC or the Issuer, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest to DTC is the responsibility of the Issuer, disbursement of such payments to Direct Participants is the responsibility of DTC, and disbursement of such payments to the Beneficial Owners is the responsibility of Direct and Indirect Participants.

Under certain circumstances, including if there is an Event of Default under the Notes, DTC will exchange the DTC Notes for definitive Registered Notes, which it will distribute to its Participants in accordance with their proportionate entitlements and which, if representing interests in a Rule 144A Global Note, will be legended as set forth under "Subscription and Sale and Transfer and Selling Restrictions". For these purposes, an Event of Default means an Event of Default (as defined in Condition 9).

Since DTC may only act on behalf of Direct Participants, who in turn act on behalf of Indirect Participants, any Owner desiring to pledge DTC Notes to persons or entities that do not participate in DTC, or otherwise take actions with respect to such DTC Notes, will be required to withdraw its Registered Notes from DTC as described below.

Euroclear and Clearstream, Luxembourg

Euroclear and Clearstream, Luxembourg each holds securities for its customers and facilitates the clearance and settlement of securities transactions by electronic book-entry transfer between their respective account holders. Euroclear and Clearstream, Luxembourg provide various services including safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Euroclear and Clearstream, Luxembourg also deal with domestic securities markets in several countries through established depository and custodial relationships. Euroclear and Clearstream, Luxembourg have established an electronic bridge between their two systems across which their respective participants may settle trades with each other.

Euroclear and Clearstream, Luxembourg customers are world-wide financial institutions, including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Indirect access to Euroclear and Clearstream, Luxembourg is available to other institutions that clear through or maintain a custodial relationship with an account holder of either system.

BOOK-ENTRY OWNERSHIP OF AND PAYMENTS IN RESPECT OF DTC NOTES

The Issuer may apply to DTC in order to have any Tranche of Notes represented by a Registered Global Note accepted in its book-entry settlement system. Upon the issue of any such Registered Global Note, DTC or its custodian will credit, on its internal book-entry system, the respective nominal amounts of the individual beneficial interests represented by such Registered Global Note to the accounts of persons who have accounts with DTC. Such accounts initially will be designated by or on behalf of the relevant Dealer. Ownership of beneficial interests in such a Registered Global Note will be limited to Direct Participants or Indirect Participants, including, in the case of any Regulation S Global Note, the respective depositories of Euroclear and Clearstream, Luxembourg. Ownership of beneficial interests in a Registered Global Note accepted by DTC will be shown on, and the transfer of such ownership will be effected only through, records maintained by DTC or its nominee (with respect to the interests of Direct Participants) and the records of Direct Participants (with respect to interests of Indirect Participants).

Payments in U.S. dollars of principal and interest in respect of a Registered Global Note accepted by DTC will be made to the order of DTC or its nominee as the registered holder of such Note. In the case of any payment in a currency other than U.S. dollars, payment will be made to the Exchange Agent on behalf of DTC or its nominee and the Exchange Agent will (in accordance with instructions received by it)

Book-Entry Clearance Systems

remit all or a portion of such payment for credit directly to the beneficial holders of interests in the Registered Global Note in the currency in which such payment was made and/or cause all or a portion of such payment to be converted into U.S. dollars and credited to the applicable Participants' account.

The Issuer expects DTC to credit accounts of Direct Participants on the applicable payment date in accordance with their respective holdings as shown in the records of DTC unless DTC has reason to believe that it will not receive payment on such payment date. The Issuer also expects that payments by Participants to beneficial owners of Notes will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers, and will be the responsibility of such Participant and not the responsibility of DTC, the Principal Paying Agent, the Registrar or the Issuer. Payment of principal, premium, if any, and interest, if any, on Notes to DTC is the responsibility of the Issuer.

TRANSFERS OF NOTES REPRESENTED BY REGISTERED GLOBAL NOTES

Transfers of any interests in Notes represented by a Registered Global Note within DTC, Euroclear and Clearstream, Luxembourg will be effected in accordance with the customary rules and operating procedures of the relevant clearing system. The laws in some States within the United States require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer Notes represented by a Registered Global Note to such persons may depend upon the ability to exchange such Notes for Notes in definitive form. Similarly, because DTC can only act on behalf of Direct Participants in the DTC system who in turn act on behalf of Indirect Participants, the ability of a person having an interest in Notes represented by a Registered Global Note accepted by DTC to pledge such Notes to persons or entities that do not participate in the DTC system or otherwise to take action in respect of such Notes may depend upon the ability to exchange such Notes for Notes in definitive form. The ability of any holder of Notes represented by a Registered Global Note accepted by DTC to resell, pledge or otherwise transfer such Notes may be impaired if the proposed transferee of such Notes is not eligible to hold such Notes through a direct or indirect participant in the DTC system.

Subject to compliance with the transfer restrictions applicable to the Registered Notes described under "Subscription and Sale and Transfer and Selling Restrictions", cross-market transfers between DTC, on the one hand, and directly or indirectly through Clearstream, Luxembourg or Euroclear accountholders, on the other, will be effected by the relevant clearing system in accordance with its rules and through action taken by the Registrar, the Fiscal Agent and any custodian ("**Custodian**") with whom the relevant Registered Global Notes have been deposited.

On or after the Issue Date for any Series, transfers of Notes of such Series between accountholders in Clearstream, Luxembourg and Euroclear and transfers of Notes of such Series between participants in DTC will generally have a settlement date three business days after the trade date (T+3). The customary arrangements for delivery versus payment will apply to such transfers.

Cross-market transfers between accountholders in Clearstream, Luxembourg or Euroclear and DTC participants will need to have an agreed settlement date between the parties to such transfer. Because there is no direct link between DTC, on the one hand, and Clearstream, Luxembourg and Euroclear, on the other, transfers of interests in the relevant Registered Global Notes will be effected through the Registrar, the Fiscal Agent and the Custodian receiving instructions (and, where appropriate, certification) from the transferor and arranging for delivery of the interests being transferred to the credit of the designated account for the transferee. In the case of cross-market transfers, settlement between Euroclear or Clearstream, Luxembourg accountholders and DTC participants cannot be made on a delivery versus payment basis. The securities will be delivered on a free delivery basis and arrangements for payment must be made separately.

DTC, Clearstream, Luxembourg and Euroclear have each published rules and operating procedures designed to facilitate transfers of beneficial interests in Registered Global Notes among participants and accountholders of DTC, Clearstream, Luxembourg and Euroclear. However, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued or changed at any time. None of the Issuer, the Agents or any Dealer will be responsible for any performance by DTC, Clearstream, Luxembourg or Euroclear or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations and none of them will have any liability for any aspect of the records relating to or payments made on account of beneficial interests in the Notes represented by Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial interests.

Subscription and Sale and Transfer and Selling Restrictions

The Dealers have in an amended and restated programme agreement dated 20 June 2014 (such programme agreement as modified and/or supplemented and/or restated from time to time, the “**Programme Agreement**”), agreed with the Issuer a basis upon which they or any of them may from time to time agree to purchase Notes, ECP or other debt instruments. Any such agreement will extend to those matters stated under “Form of the Notes” and “Terms and Conditions of the Notes” above. In the Programme Agreement, the Issuer has agreed to reimburse the Dealers for certain of their expenses in connection with the establishment of the Programme and the issue of Notes, ECP or other debt instruments under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith.

In order to facilitate the offering of any Tranche of the Notes, certain persons participating in the offering of the Tranche may engage in transactions that stabilise, maintain or otherwise affect the market price of the relevant Notes during and after the offering of the Tranche. Specifically such persons may over-allot or create a short position in the Notes for their own account by selling more Notes than have been sold to them by the Issuer. Such persons may also elect to cover any such short position by purchasing Notes in the open market. In addition, such persons may stabilise or maintain the price of the Notes by bidding for or purchasing Notes in the open market and may impose penalty bids, under which selling concessions allowed to syndicate members or other broker-dealers participating in the offering of the Notes are reclaimed if Notes previously distributed in the offering are repurchased in connection with stabilisation transactions or otherwise. The effect of these transactions may be to stabilise or maintain the market price of the Notes at a level above that which might otherwise prevail in the open market. The imposition of a penalty bid may also affect the price of the Notes to the extent that it discourages resales thereof. No representation is made as to the magnitude or effect of any such stabilising or other transactions. Such transactions, if commenced, may be discontinued at any time. Under U.K. laws and regulations stabilisation activities may only be carried on by a Stabilisation Manager and must end no later than the earlier of 30 days following the Issue Date of the relevant Tranche of Notes and 60 days following the date of the allotment of the relevant Tranche of Notes.

SELLING RESTRICTIONS

United States

The Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act.

The Notes in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and regulations thereunder. The applicable Final Terms (or Pricing Supplement, in the case of Exempt Notes) will specify whether TEFRA C rules or TEFRA D rules apply or whether TEFRA is not applicable.

In connection with any Notes which are offered or sold outside the United States in reliance on an exemption from the registration requirements of the Securities Act provided under Regulations (“**Regulation S Notes**”), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer, sell or deliver such Regulation S Notes (i) as part of their distribution at any time and (ii) otherwise until 40 days after the completion of the distribution, as determined and certified by the relevant Dealer or, in the case of an issue of Notes on a syndicated basis, the relevant lead manager, of all Notes of the Tranche of which such Regulation S Notes are a part, within the United States or to, or for the account or benefit of, U.S. persons and it will have sent to each dealer to which it sells any Regulation S Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Regulation S Notes within the United States or to, or for the account or benefit of, U.S. persons.

Until 40 days after the commencement of the offering of any Series or Notes, an offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Dealers may arrange for the resale of Notes to QIBs pursuant to Rule 144A and each such purchaser of Notes is hereby notified that the Dealers may be relying on the exemption from the registration requirements of the Securities Act provided by Rule 144A. The minimum aggregate principal amount of Notes which may be purchased by a QIB pursuant to Rule 144A is U.S.\$100,000 (or the approximate equivalent thereof in any other currency). To the extent that the Issuer is not subject to or does not comply with the reporting requirements of Section 13 or 15(d) of the Exchange Act or the information furnishing requirements of Rule 12g3-2(b) thereunder, the Issuer has agreed to furnish to holders of Notes and to prospective purchasers designated by such holders, upon request, such information as may be required by Rule 144A(d)(4).

Subscription and Sale and Transfer and Selling Restrictions

- (a) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (b) at any time to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (c) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Notes referred to in (a) to (c) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an “offer of Notes to the public” in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression “Prospectus Directive” means Directive 2003/71/EC (and any amendments thereto, including the 2010 PD Amending Directive, to the extent that it has been implemented in the Relevant Member State), and also includes any relevant implementing measure in the Relevant Member State and the expression “**2010 PD Amending Directive**” means Directive 2010/73/EU.

EU SAVINGS DIRECTIVE

Under Council Directive 2003/48/EC on the taxation of savings income, Member States are required to provide to the tax authorities of other Member States details of certain payments of interest or similar income paid or secured by a person established in a Member State to or for the benefit of an individual resident in another Member State or certain limited types of entities established in another Member State.

On 24 March 2014, the Council of the European Union adopted a Council Directive amending and broadening the scope of the requirements described above. Member States are required to apply these new requirements from 1 January 2017. The changes will expand the range of payments covered by the Directive, in particular to include additional types of income payable on securities. The Directive will also expand the circumstances in which payments that indirectly benefit an individual resident in a Member State must be reported. This approach will apply to payments made to, or secured for, persons, entities or legal arrangements (including trusts) where certain conditions are satisfied, and may in some cases apply where the person, entity or arrangement is established or effectively managed outside of the European Union.

For a transitional period, Luxembourg and Austria are required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments. The changes referred to above will broaden the types of payments subject to withholding in those Member States which still operate a withholding system when they are implemented. In April 2013, the Luxembourg Government announced its intention to abolish the withholding system with effect from 1 January 2015, in favour of automatic information exchange under the Directive.

The end of the transitional period is dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries. A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland).
